

(Continued from Page 1)
been an active director for three terms and felt he would like to be relieved of the full responsibility of that office. The board accepted his resignation and immediately moved to make him an associate director. He accepted, saying that he would gladly serve in that limited capacity as long as he was physically able.

The county commissioners, whose responsibility it is to select all new directors, were asked to name a director to replace Good, effective January 1, 1966. At a meeting held Wednesday, the commissioners selected J. Everett Kreider, Quarryville area farmer, to succeed Good as director. His term of office will be four years. Kreider is well-known in dairy and auctioneering circles, and was recently elected to a four-year-term as a commit-

teeman with Agway, Inc., Garden Spot Unit.

Also referred to the commissioners was a request for secretarial help for the district. This would involve the services of a secretary one day a week to work with County Conservationist Wayne Maresch on district record keeping, and typing up new cooperator plans.

Ten new agreements were presented by Maresch, and were unanimously approved for acceptance by the directors. The new cooperators were: John J. Zeiset, East Earl R1; Walter Martin, Ephrata R1; Paul E. Martin, Carrie Eberly and Phares W. Martin, all of Stevens R1; Rufus M. Oberholtzer, Stevens R2; Titus S. Zimmerman, Narvon R1; J. K. Mast, Elverson; William E. Cramer, New Providence R1; and Robert G. Harnish, Millersville R1.

Among other business, it was announced the annual

meeting will definitely be held at the Blue Ball Fire Hall on March 8, and the featured speaker will be Charles Hess, state director of soil and water conservation districts.

Area Forester John Klitch announced that trees are available again this year under the Glatfelter program, and that anyone interested should contact him.

The next association meeting will be held at the Farm Credit Building, Lancaster, on January 3, at 7:30 p.m. The date was moved ahead one week so there would be no conflict with Farm Show events.

4-H Club News

Bulb Sale Lights-Up 4-H Clubs & Council Treasuries

The final report on the 4-H Light Bulb Sale held late last summer by the 4-H Leaders' Council showed a total profit of \$3,150.92. This was divided between the clubs and the Leaders' Council at the rate of \$883.68 and \$2,267.24, respectively.

The top salesmen were: Linda Smith, Washington Boro (\$217.26), who received a check for \$25; Velma Temple, Nottingham R2 (\$204.90), who received a check for \$15; and Richard Warfel, Conestoga R1 (\$166.07), who received \$10.

The first and third place winners were from the Penn Manor Community Club, which sold \$1,104 worth of bulbs.

The above awards were provided by the AA Electric Company, and were the only awards given to individual members. Honorable mention went to all 4-H'ers who sold over \$100 worth of bulbs. These included Nancy Herr, Silver Springs; Susie Kauffman, Elizabethtown; Vicki Brosey, Manheim; and Judy Horst, New Holland.

The task of keeping the sales records was performed by Wilbur Houser.

● ASCS

(Continued from Page 1)
He explained that, beginning January 1, 1966, the identifying Social Security numbers will be entered on payment-drafts to producers, and they will also be used by the Department of Agriculture in reporting such payments to the Internal Revenue Service. Such identifying numbers now appear on all reports of income-payments — such as bank interest, dividends, etc. — made by the paying companies or agencies. This is required under the Internal Revenue Code.

basis for 45 individual records.

The herd is also above breed average in the national Association's official classification for body type program. The Frey Holsteins have a breed age average of 102.5 percent — obtained by dividing the classification score of each cow by the average score of all registered Holstein cows of the same age.

At a meeting of Holstein breeders from this area a bronze year plate will be presented to the Freys, to be added to the cast bronze plaque awarded when this

County Guernsey Breeders Elect Harry Mumma

The Lancaster County Guernsey Breeders Association named Harry Mumma, Manheim R1, president at a meeting of the Association Monday night at the home of retiring president Robert Breneman, Strasburg R1.

Other officers elected for the coming year were: Robert McSparran, Peach Bottom, vice-president, Jesse Balmer, Lititz R4, secretary-treasurer.

Chairmen and members for various association committees were also named. They were: Herbert Myers, 1150 Village Rd., Lancaster, chairman, tours committee with Earl Linton, Kirkwood R1, and Raymond Witmer, Willow Street R1 as members; field day committee chairman J. Rohrer Witmer of Willow Street R2, with Elmer Lapp, Kinzers R1, and John Landis, 1804 Hempstead Rd., Lancaster, as members.

Kenneth Garber of Willow Street R1 was appointed Red Rose Dairy Herd Improvement Association representative.

herd first achieved the Progressive Breeder honor.

The Story Behind . . .

HPS FORMULAS

As farming has become more competitive, and profit margins have dwindled, farmers have had to aim for ever higher returns from grassland acreage, just as they have on cultivated crops. This need for greater productivity resulted in Hoffman HPS Formulas.

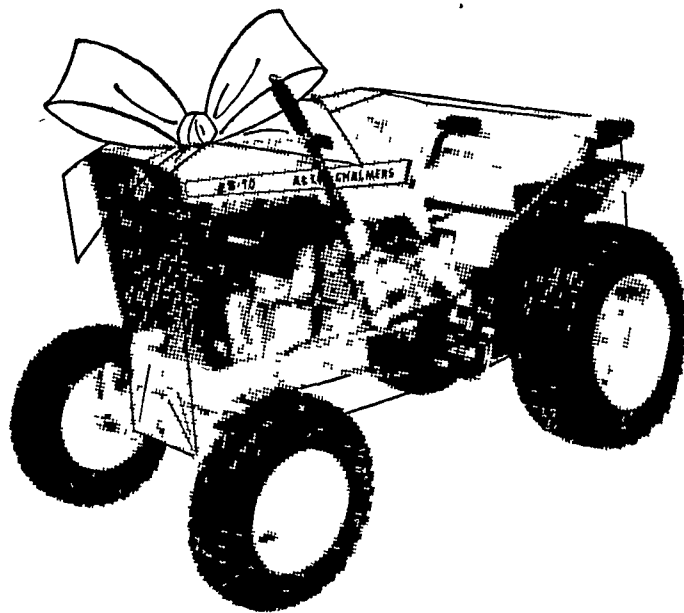

Hoffman has, for years, been a leader in introducing new, heavier producing varieties of alfalfas, clovers and grasses. These "straight" items continue to be important staples in the Hoffman line.

We began to find, however, an increasing call for combinations of grasses and legumes to meet specific situations. Our attention was then focused on the scientific formulation of such combinations. The end result was the Hoffman HPS Formulas — for more profitable yields of Hay/Pasture/Silage.

In arriving at specific HPS formulations, we considered the recommendations of Experiment Stations in the states in the Hoffman selling area. We studied the preferences of our customers over the years, and the results they achieved. Field tests were studied.

Each new bit of evidence was carefully evaluated. Out of this broad program of research and practical on-farm results came Hoffman HPS Formulas — each designed to do an outstanding job in meeting a specific need.

HE CAN USE IT ALL YEAR LONG
...WHY NOT NOW?

NEW! BIGGER POWER!

What better time? He's always talked about practical gifts. Make it this year.

The new Allis-Chalmers B-10 tractor is a real tractor — bigger horses, bigger rear tires. With tools he can get (just like a farmer gets his implements) he can:

- throw snow • mow • mulch leaves • roll the lawn • plow, disc and till a garden • carry loads.

There are attachments, like: a loader, lift tines, a grader, blade, and so on and so on.

Come in for a free ride. And, put it on our time purchase plan. Why not now?
