New Holland

Wean at 3 weeks
— get 50 lb. pigs
at 9 with

WAYNE TAIL CURLER ROCKETS

Yes, that's what the new Wayne Tail Curler Rockets did for typical early weaned pigs at the Wayne Research Center.

Pigs go for the tasty new Tail Curler Rockets. (3 to 1 over a creep feed formerly considered very palatable.) They get top nutrition from choice ingredients, carefully balanced and fortified to meet the critical needs of baby pigs.

Tail Curler Rockets contain Complex 65, Wayne's Aureomycin, Sulmet and Penicillin combination that gives the difference you can see!

If you don't care to early wean, Tail Curler Rockets will pay off as a pre-starter.

Remember every pound of creep ration eaten means a pound heavier pig at weaning, and a head start that lasts all the way to market.
