● DHIA

(Continued from Page 1)
possible in our society; we must encourage the individual," the educator told the group.

Samuel A. Dum, association president, announced that there were 201 herds enrolled in the county DHIA program that had produced records of 500 pounds of fat, or more. Of these, 17 were recognized as being in the 600-pound plus category. The top dairyman for the 1965 testing year was J. Mowery Frey, Jr., whose herd averaged 671 pounds of butterfat, and 15,968 pounds of milk. Others in the major "over 600" class were Paul B. Zimmerman, 666; Hiram S. Aungst, 649; John E. Esh, 645 — Esh led the field in total pounds of milk per cow with 18,254, Furry H. Frey, 639, Christ K. Lapp & Son, 633, Calvin S. Kutz, 624; Lloyd Wolt, 619, Henry E. Ketting, 618, Leon W. Hess, 610, Raymond & Louise Witmer, 609, Clarence L. Keener, 608, Samuel

A. Dum, 605; Amos B. Lapp, 603; Edwin J. Landis, 602; Stanley G. Greiner, 601; John M. King, 600.

Unlike last year, there were no 700 pound herds in the county. Last year's top county herd belonged to Furry H. Frey. He was one of three herds in the state with over 700 pounds of fat with a figure of 701.

Awards were presented for the county herds having the high fat score for their respective breed. For Ayrshires this went to James Marton with 507 pounds; Guernsey, Raymond & Louise Witmer, 609; Jersey, William P. Arrowsmith, 543; Holstein, J. Mowery Frey, Jr., 671, mixed, Amos H. Rutt, 539.

Dum reported there were 27 county herds under the SNF testing program that had averaged 1000 pounds solids-not-fat. A very commendable score, Dum said.

Dexter Putnam, dairy science extensionman from Penn State, told the group that the dairy industry in Pennsylvania accounted for 40 per-

ONE OF OUR NEW MODELS

As specialists in nutritional supplements, we have a dozen "models" . . . one for every specialized livestock need. Contents have been improved many, many times since we first pioneered high-phosphorus supplements nearly a quarter-century ago.

All-purpose products usually give you unnecessary ingredients such as limestone, salt or other fillers. Young's VIT-Y-MIN specialized supplements are all precision balanced nutritionally, all tailored to specific nutritional needs of each type of livestock and offer highest mineral and vitamin value for your dollar.

Ask us or your local Young's representative for details on VIT-Y-MIN PRODUCTS.
