## SECOND SECTION

### Farmers Urged To Use CAP Wildlife Clause

The Wildlife Advisory Board in its initial meeting this week emphasized the importance of the long-term conservation aspects of the Cropland Adjustment Program in increasing wildlife habitat and recreational possibilities. At the same time, the advisory group urged farmers to make full use of the program — particularly to increase production of wildlife.

The advisory board met at

the U.S. Department of Agriculture to consider the public access and wildlife features of the program, and tentatively planned a second meeting for mid-summer to measure progress of the wildlife features of the CAP.

The board was appointed by Secretary of Agriculture Orville L. Freeman in accordance with the Food and Agriculture Act of 1965 to advise him on CAP provisions.

Under CAP, farmers who agree to open their land to the public for hunting, trapping, fishing, and hiking may be offered an additional incentive payment. The board suggested that the program

### NEPPCO Names Public Information Director

TRENTON, N. J. — Richard I. Ammon, Executive Director of the Northeastern Poultry Producers Council, has announced the appointment of Albert E. Stott as Director of Public Information for NEPPCO.

Stott's immediate responsibilities will lie in the development of a regular program of communication with both the trade and business press and the public press, according to Ammon. In addition he will also act as public relations counsel to NEPPCO.

Stott has been associated in similar capacities with several other trade groups.

### ABC Cites Outstanding Producers, Elects Comm. At 2 Area Meetings

The Atlantic Breeders Cooperative held its annual district meetings at two Lancaster County locations last week. The northern district met at the Brunnerville Fire Hall on Thursday night, while the southern group congregated on the next evening at Rhoads Spanish Tavern, Quarryville.

David Yoder reported to the groups on the successful completion of ABC's first year of operations. He said the co-op had performed nearly 238,000 first services,

and reported that \$112,500 in net savings had been made. Members who were active patrons of ABC (formerly Southeastern & Western Pa. Artificial Breeding Co-Ops) in 1958 shared \$94,000 in the revolving capital plan. He announced that six new proven sires and four young sires were acquired during 1965, and that ABC had joined the United Semen Exchange, adding seven sires from other U.S. studs to ABC's regular service, and making 300 other sires available at reduced rates.

A colored film was shown featuring milking daughters of current sires.

ABC's Certificate of Merit for Superior Production was awarded to 26 dairymen at the Brunnerville meeting and to 21 dairymen in the southern district. To be eligible for this award, herds must be DHIA-tested and rank at

 flex-a-fill

climbs, turns,

fills without

universal joints!

anderson feed

bin fills easily

empties completely

This new flexible auger system operates without gears and from only one power source. Feed moves up, down or around 90 degree corners to locations over 100 feet away! Just put feed in bulk bin... system operates automatically only when needed... and there are no joints to clog up.

Auger system has very low horse-power requirement, yet operating at a standard speed of 312 rpm, it will deliver as much as 2400 lbs. of feed per hour!

Bin fills easily... empties completely. Fill it and forget it because its weather-tight construction assures content safety until the bin is empty. "All-Out" bottom empties completely, prevents bridging... no internal braces to jam contents and stop feed flow. Caulked seams, neoprene washers, heavy gauge galvanized steel give long rust-free life. Available in side and center-draw models.

### FARM WOMEN GROUP 3 HEAR LANC. DETECTIVE

Society of Farm Women Group No. 3 held their meeting at the home of Mrs. Earl B. Latshau, Schoeneck. Devotions were in charge of Mrs. Harry A. Usner.

Mrs. William B. Eberly, president, conducted the business session. Mrs. Ivan Eberly reported the set-up thus far for the forthcoming Diamond Jubilee of the Borough of Ephrata, to be held June 19-25, 1966. The members voted to support Mrs. Eberly and her committee in the project.

A donation was given to the Heart Fund. Mrs. Harold S. Stuber introduced the speaker, detective Chester Fasig, member of the Lancaster Bureau of Police. A 1954 graduate of Pennsylvania State Police, he was chosen outstanding member of police department in 1958, and received the Hamilton Award. Detective Fasig's subject was "The Prowler, A Community Menace." Actions were described of the prowler, the peeping tom, rapist, arsonist, thief, and two types burglars. Baby sitters are targets for prowlers, Fasig said. It is urgent to instruct baby sitters to know the telephone number of the police department, and not to open doors to anyone.

The hostess, celebrating her birthday, served elegant refreshments in keeping with the event and the month of February.

The next meeting will be held March 19 in the social room of Mellinger's Lutheran Church, Schoeneck. Mrs. Lloyd W. Martin and her daughter Miss Marian Martin will be the hostesses.

### BUY GOOD SEED

Clarence Bryner, extension agronomist at Penn State University, urges farmers to select varieties tested and proven superior in Pennsylvania, and then buy high-quality seed of those varieties.
