Delivers more silage faster!

Double auger system digs the silage faster and more evenly under all conditions whether silage is frozen, wet, or dry.

Exclusive, adjustable drive hub gives more positive traction, keeps the machine operating evenly, and requires less power.

## DELIVERS BETTER SILAGE TOO!

The double augers, operating in conjunction with the patented V-paddle impellers, dig the silage, mix it thoroughly, and then throw it down the chute. Your cows and cattle get good, palatable silage... not a powdered mash as often happens with unloaders using blowers.

atins to which you add egg whites after the gelatin has partially set, then beat the mixture until stiff, chill until firm and ready to serve. To vary a snow or sponge pudding, serve it with a custard sauce garnished with sliced fresh or canned fruit; add crushed or mashed fruit, such as bananas, berries, or peaches to the gelatin mix-

ture; or fill a prepared pie shell with a sponge mixture and garnish with dabs of whipped cream.

### Worth Knowing Anytime

Never shake or tap the cup while you're measuring flour. Pile lightly into the cup. Level off excess flour with a straight-edge knife.

To check when bread dough has risen enough, press your finger into the side of the dough. If the dent remains, the dough has doubled, or has risen enough. Make this check at the minimum time given so the dough doesn't get too light.

It's important to choose a variety of foods from each of the four food groups to furnish the necessary nutrients you need to maintain good nutritional health. To omit foods from any single group weakens the diet.

Cheese fits into every part of a meal... as a tangy appetizer, in a main dish, vegetable sauce, salad, and dessert.

The public weather service of the United States began in 1870 as part of the Army Signal Corps according to World Book Encyclopedia.
