

**FOUR IVANHOE DAUGHTERS THAT AVERAGE OVER 1000 POUNDS OF BUTTERFAT!** There are 15 cows in the Fultonway Farms herd whose best records average over 1000 pounds of fat. The men are J. Mowery Frey, Jr. (left) and Jim Bender, herdsman. Current DHIA herd average is 15,968 pounds of milk and 671 pounds of butterfat. This was the top record in Lancaster County for the 1964-1965 testing year. L. F. Photo

clean, well-ventilated cow stable, and the vacuum-cleaned registered Holsteins

The farm operation covers 300 acres on three farms, including 100 acres of alfalfa, 100 acres of corn, 40 acres of wheat and 5 acres of tobacco. Livestock consists of 60 cows, 65 heifers and 10 bulls.

As for excellent cows these four completed records recently: Fultonway Ivanhoe Rae (VG) 365d 30 110m, 4.6%, 1390t, Bayfield Ty Grawin Johanna (EX-92) 365d 29 337m, 4.3%, 1275f, Fultonway Lucite Joan (VG) 365d 29 000m, 3.9%, 1152f, and Fultonway Rachel Ann (VG-59) 365d, 26 632m, 3.8%, 1022t

The Rae cow, as a Jr 3-year-old had the Pennsylvania record for butterfat with 842 lb. This high-record Ivan-

hoe daughter came back as a Jr 4-year-old to make a national record for butterfat and place first in Pennsylvania for both milk and butterfat in her age class with 26,600 pounds of milk and 1290 pounds of butterfat. The butterfat record was also first for all ages in Pennsylvania

This year Rae exceeded her own record by 100 lb. Johanna Ivanhoe's highest-scoring daughter and the dam of Fultonway's herd sire Fultonway Johann, was All New York 4-year-old in 1959, member of the Honorable Mention All-American Produce in 1963 and first in the 100,000 pound class at the Pennsylvania Black and White Show in 1964. Her lifetime credits total over 150,000 pounds of milk and the latest record reported above is her largest to date.

There are 15 cows in

dent: and Aaron J. Brubaker, secretary.

Also ranking high in the order of business was a change in the by-laws. These operational rules had become outdated as they were established at the time of the merger of the Lancaster County Poultry Association and the Lancaster Poultry Exchange. The changes were unanimously approved by the members present and voting.

The by-law change which was regarded as probably the most significant moved the date of the annual business meeting to coincide with the annual banquet meeting of the association in the Fall. It was felt that the membership would be better represented at the banquet meetings and that naming of new directors would, therefore, be more in accord with the wishes of the

membership majority.

Following the business meeting, Roy Edwards of Bricker-ville showed and narrated colored films he had taken on a recent hunting trip through the far west and in British Columbia.

farm and agribusiness operations, particularly with a view to providing increased food-stuffs for an expanding population.

Findings of the sub-committees, Bull stated, will be consolidated into a combined draft. Some final work remains to be done on the report, he indicated. When completed, it will be presented to the Governor and made available for general distribution.

He for his high-cutting Yorkshire Owners of the two top hogs were presented with trophies.

Nineteen hogs were entered in the carcass show, and scoring was based on ham-loin percentage, plus a meat quality evaluation. The effect of meat quality on carcass value caused one hog to be placed fifth, even though it was tops on ham-loin factors. That hog was also judged number one in the on-foot evaluation which took place on Monday with 23 observers estimating how the carcasses would cut out.

Champ of the on-foot judges was John Hastings of Kirkwood R1 with a score of 93.9. He was presented with a ham from the grand champion hog. Runner-up was Clair Hartman,

Gratz, with a score of 97.6 which earned him a loan from the champion Willow Glen hog.

Prize money in the carcass show extended to the first in places; placings and individual measurements were as follows:

1—Willow Glen — Hampshire cross; 30.9 in. long, 110 in. backfat; 50 sq. in. loin-eye; 43.2 percent ham-loin

2—John J. Hess II — Yorkshire; 31.6 in. length, 123 in. backfat; 56 sq. in. loin-eye; 41.7 percent ham-loin

3—John Stuber — Hampshire; 29.0 in. length, 120 in. backfat, 46 sq. in. loin-eye; 41.2 percent ham-loin

4—Leon Arnold — Cross-bred; 30.5 in. length, 150 in. backfat, 54 sq. in. loin-eye; 40.6 percent ham-loin

5—John Strawbridge — Hampshire; 28.9 in. length, 133 in. backfat, 64 sq. in. loin-eye, 44.0 percent ham-loin

6—Glenn Sauder — Yorkshire; 30.1 in. length, 126 in. backfat; 5.1 sq. in. loin-eye; 40.4 percent ham-loin.

7—George Cogley — Yorkshire; 30.2 in. length, 133 in. backfat; 50 sq. in. loin-eye; 39.6 percent ham-loin

8—Richard P. Maule — Berkshire; 31.2 in. length; 130 in. backfat, 52 sq. in. loin-eye; 39.5 percent ham-loin

9—John Hastings — Chester White; 30.1 in. length, 136 in. backfat, 43 sq. in. loin-eye; 39.5 percent ham-loin

10—James Z. Martin — Landrace; 31.3 in. length; 136 in. backfat, 46 sq. in. loin-eye; 39.5 percent ham-loin.

Average measurements for these factors for the first ten places were: carcass length, 30.38 inches; backfat, 129 inches; loin-eye, 51 square inches, ham-loin percentage, 40.9.

**Fat Cattle For Tuesday, March 22**

Expecting a good run of fat cattle. Many will be excellent for feed lot cattle.

Included in this sale will be several lots of outstanding Angus steers, real quality.
