### Grassland Chapter

(Continued from Page 1) State College on April 27. Then the main event, the state contest, will be held at Penn State University during FFA Week in late June.

The county champs, coached by vocational agriculture teacher R. Gene Daugherty, include Mike Smucker, president; Gal-

## Find Out How Much MORE MILK Your Cows Can Give **PROFITABLY**

The new Wayne "More for Your Money" Concept of dairy feeding can show you the way. Science has proved that there's a correct balance between body weight feeding and milk production The Wayne Concept helps you strike the balance that produces the maximum yield you may not be getting now

Lead Into Production You ask your cows how much they should be fed. Lead them into peak production rather than letting their presont production tell you how much to feed. Feed FOR production rather than TO production. High level grain feeding is profitable as shown by a summary of DHIA records from Michigan Let us show you how to apply the new Wayne Concept to cows already is their lactation period . . . how to use it in conjunction with a silage ration . . . how to balance grain mixtuse use with greater preduction. Stop in scon.

# ONE OF OUR NEW **MODELS**

As specialists in nutritional supplements, we have a dozen "models" . . . one for every specialized livestock need. Contents have been improved many, many times since we first pioneered high-phosphorus supplements nearly a quarter-century ago.

All-purpose products usually give you unnecessary ingredients such as limestone, salt or other fillers. Young's VIT-Y-MIN specialized supplements are all precision balanced nutritionally, all tailored to specific nutritional needs of each type of livestock and offer highest mineral and vitamin value for your dollar.

Ask us or your local Young's representative for details on VIT-Y-MIN PRODUCTS.
