

## ● For The Farm Wife

(Continued from Page 14)  
loaf. Place in greased 8½x4½x2½ inch loaf pans. Cut slashes about ¼-inch deep at 1-inch intervals across top of each loaf. Brush with melted shortening; cover and let rise until nearly double in size, about 45 minutes. Bake in preheated moderate oven (375 degrees) 45 to 50 minutes or until golden brown. Drizzle with confectioners' sugar frosting, if desired. Makes 2 loaves.

## WAFFLES WITH RAISIN-APPLE SAUCE

8 tablespoons butter or margarine  
¾ cup chopped onion  
2 cups applesauce  
¾ teaspoon ground cloves  
¾ cup seedless raisins  
1½ cups diced cooked ham  
Melt butter or margarine and saute onion until light brown. Add apple sauce, cloves and raisins; simmer 3 minutes. Add ham and heat thoroughly. Serve between hot waffles.

## ● Have You Heard?

(Continued from Page 15)  
cup of honey weighs about 12 ounces—one-fifth of which is moisture.

Liquid honey keeps best in a dry place. Avoid damp places for storing honey as it will absorb and retain moisture. Do not put honey in the refrigerator.

## Precautions To Take To Protect Children From Fire

Keep young children in constant sight and mind. Never leave children alone, not even for a few minutes.

Be sure babysitters have specific instructions in case of a fire. Instructions include orders to get children outside the instant they discover smoke or gas and how to get in touch with parents.

fire department, physician, and police. Be sure babysitters know the location of at least two escape routes.

Teach older children how to use and respect fire. They learn best by your example.

Keep your house free of fire hazards — have regular inspections.

Have at least two escape routes from every room and make sure children know these routes. Teach them how to get out of the house to safety in case of a fire.

EXTENSION HOMEMAKERS WEEK — June 21-24 are the dates for this 14th annual event at The Pennsylvania State University. The Coop-

erative Extension Service of the University sponsors this registration, call or write the event and invites all interested women to take part in it. your county.

The Jamesway Volumetric distributes evenly from top to bottom. No feed separation.

## BIG J-DISTRIBUTOR/UNLOADER

distributes feed uniformly—  
gives you 28% more capacity

Two machines in one! The Big J works in any season — as a silage distributor, as a silo unloader. At filling time, the Fill-O-Matic distributor revolves to direct feed to the wall of the silo — cob, corn, stalk, grass and leaf particles stay mixed evenly for ideal compaction, fermentation and preservation. No uneven, off-center loading which causes dangerous pressures against silo wall. Ends hand labor in the silo because the Big J is completely mechanical!

Positive delivery unloader! The Big J unloads evenly, too, with Power Circle Drive and 3-Point Suspension. You can remove fluffy, newly cut haylage immediately — no waiting for feed to settle.

445 South Cedar Street Ph. 626-8144 Lititz, Penna. 17543

## Public Auction
