

FRED FREY demonstrates how his salt and mineral feeder, with its "fin" guided by the wind direction, keeps the metal back in a position protecting the feeder's contents. His shop makes all parts of this feeder except the rubber pans which hold the material. L. F. Photo

ERNIE FREY shows how Frey Fence Panels are assembled with each joint welded in the farm shop. Although these panels are made in certain standard sizes, custom sizes are built on request. L. F. Photo

THIS PATENTED LATCH, which Fred Frey calls the "Double Slam-o-Matic", was designed and tested on the farm. It is designed to permit gates to be opened clear through from either side, but it can not be readily opened by livestock. L. F. Photo

(Continued from Page 8)
the advantage of allowing a gate to swing clear through in either direction.

All of Frey's gates and fencing are made from light-weight, tubular steel, each receiving a prime coat of paint before it leaves the shop. A new tank has recently been ordered, Frey said, which will provide a complete paint dipping system, handling gates up to 20-foot in length.

At the moment, Fred and Ernie make all the products, with one part-time man helping out. But the way business is expanding, Fred foresees a day in the not-too-distant future when his little farm shop will not adequately handle the traffic, and a large modern machine shop will be needed.

In addition to his farming, showing, and other business activities, Fred found time to help organize a branch of the National Farmers Union in southern Lancaster and Chester Counties a couple of years ago. He also served one term as that organization's first president.

AS MOMMA watches the camera suspiciously, the newest arrival at Twin Oaks seems to have only thoughts of food on his young mind. The Frey brood cow herd remains on pasture the year-round, and all the calves are dropped in the great out-doors. An old barn nearby is available for shelter in the worst weather. L. F. Photo

4-H Club News

GARDEN SPOT 4-H CLUB HOLDS REORGANIZATION

by Nancy Risser, reporter
The reorganization meeting of the Garden Spot 4-H Community Club was held May 10 at the Smoketown Elementary School. The following officers were elected:

Kenneth Risser, Leola R1 president; Claire Esbenschade, Willow Street, vice-president; Debbie Trout, Bird-in-Hand, secretary; Tom Houser, Lampeter, treasurer; Tom Fory, 2016 Horseshoe Road, song leader; Dean Brubaker, Willow Street, game leader; and Nancy Risser, Leola R1, news reporter. Bill Houser, Lampeter, was elected as the club's County Council representative.

Harvey Gipe, assistant county agent, showed slides of his trip to Holland as an I F Y E Leader of the club. The club's leaders are Wilbur Houser and Maurice Herr. A committee was appointed to set up a booth for the Spring Jamboree which will be held at the Leola War Memorial Building on May 27.

The next club meeting date was set for June 14.

the MORE They Graze
the MORE It Grows

DEKALB "SUDAX" SX-11

MORE FORAGE

EXCELLENT GRAZING QUALITIES

Here's a "grazer" that's hard to beat. SX-11 has all the features of good sudangrass plus the bred-in ability to produce 35 to 50% more forage. It's a fast grower—tolerates drought and is very edible. If you're grazing cattle, SX-11 should be a "MUST".

FAST RECOVERY

HIGH PALATABILITY
