

# All-American To Feature S.E. Pa. Hay Show

**HARRISBURG.** — That hay and cattle "go together" will be exemplified at the third Pennsylvania All-American Dairy Show, Sept. 12-16 in the State Farm Show Building where the annual Southeast Pennsylvania Hay Show will be staged as an added attraction.

Horace L. Mann, director of the Pennsylvania State Farm Show and in charge of the show building, said the hay show will consist of samples submitted by farmers from a dozen southeastern counties.

The hay will be judged and ribbons awarded to the winners.

Contest hay will be displayed in the large arena convenient to the judging rings where it can be examined by spectators attending the dairy event.

The hay show will be sponsored by the Pennsylvania Grassland Council in cooperation with the Pennsylvania State University.

Sponsors of the dairy show are the Pennsylvania Department of Agriculture, its Farm Show Commission, and the Pennsylvania Dairy and Allied Industries Association.

Mann said both the hay and dairy shows will be open to the public without charge, and

that parking will be free. Harold R. McCulloch, dairy show manager, said premium books will be distributed by July 1 to dairy breeders who were exhibitors at the 1965 show, and that copies will be available at his office in the Farm Show Building.

He said August 15 will be the deadline for dairy cow entries.

Total meat production for 1966 in the United States is estimated at 31.5 billion pounds, as compared to 31.7 billion pounds in 1965. This is still short of the record 32.7 billion pounds of beef, veal, pork and lamb produced in 1964.

**DON'T TAKE OFF THE SKIN**  
There's more than one reason for leaving the skin on sweet potatoes when you boil them, say Penn State extension foods and nutrition specialists. The thin skin is easier to peel off when the sweet potato is cooked, and it takes less of the potato with it. Besides, when the protective jacket is gone, some sweetness is dissolved in the cooking water.

## PP&L ANNOUNCES ANNUAL SCHOLARSHIP WINNERS

These twenty-six high school seniors will begin their college educations this fall with scholarship assistance from PP&L.

Twenty-three of the winners were selected by and will attend 21 Central Eastern Pennsylvania colleges and universities under PP&L's General Scholarship Program, which provides from \$250 to \$1,450 per student, related to the instructional costs at each institution. Two of the awards stipulate that the students must pursue a degree in engineering. The other 21 general scholarship winners may study any course leading to a baccalaureate degree.

The remaining three students were selected by the National Merit Scholarship Corpora-

tion under a separate scholarship program for sons and daughters of PP&L employees. These students receive from \$100 to \$1,500 per year, depending upon financial need, and may attend the college or university of their choice.

PP&L's scholarship program reflects the Company's belief that progress is a product of education and that the nation needs the full potential of its capable young people. In addition to providing grants-in-aid directly, PP&L supports the Foundation for Independent Colleges of Pennsylvania, matches employee contributions to qualified educational institutions anywhere in the U.S., and has an educational assistance program under which employees may continue their studies in various fields.
