

It took Washington and the members of the Constitutional Convention 96 days to frame the Constitution. Our advertisers will be glad to have you mention Lancaster Farming when answering their advertisements.

PIGS FROM ADJOINING LITTERS PLAY TOGETHER while their respective Mamas catch up on a little sleep in their farrowing crates. These two litters are nearly ready for weaning. When they reach 50 pounds they will be sold to customers who will fatten them for market. L. F. Photo

Weeds Choking Your Pond?

We've got just what you need to clean 'em out fast:

ORTHO Diquat

Use a little Diquat in that choked-up pond of yours, and in ten days you'll have clean clear water for irrigation, swimming or even a fishing hole.

Diquat kills aquatic weeds like nothing you've ever seen before. You name it: water lettuce, water fern, pondweeds, coontail, southern naiad, waterhyacinth, elodea. They'll all wilt, collapse and die.

Diquat is easily applied — Use it as directed. It is non-hazardous to fish. In fact, it would take twenty times the maximum recommended dosage to be at all harmful to fish. After ten days, you'll even be able to swim in the water or use it for spraying or irrigating. That's all it takes for Diquat to dissipate completely.

The best news is the economy. A little Diquat goes a long way. See use right away . . . we'll be glad to tell you exactly how little you'll need for your pond. You're in for a happy surprise.
