

Waitress Wins Dairy Association County "Miss Hospitality" Title

Mrs. Hilda Eisenberger, Paradise R1, a waitress at Miller's Smorgasbord, has been chosen "Miss Hospitality" of Lancaster County. She will compete at the regional restaurant exposition in October for the state title and a trip to Copenhagen, Denmark.

The contest, sponsored by the Pennsylvania Milk Dealers Association, the American Dairy Association, and the

observations, the committee selected the winner.

First runnerup to "Miss Hospitality" was Dorothy Moser, Manor Plaza; second runnerup, Geraldine Graham, The Willows.

Hilda Eisenberger

Pennsylvania Restaurant Association, was held all during May with 10 Lancaster County restaurants cooperating.

The idea was to find waitresses with the best combination of those characteristics which help make dining out an enjoyable experience, placing emphasis on good grooming, a pleasant personality, and sales ability. The challenge to their sales ability was the sale of a glass of milk to their customers.

Customers voted for their choice of waitress. The waitresses in each restaurant had an opportunity to select from among themselves their choice for the title, and management had an opportunity to rate their waitresses. With this information added to its own

Horace Mann is the father of the American public school system.

Weather Forecast

The weatherman promises us more of these cool, comfortable conditions for the next five days, with temperatures expected to average below the normal range of 87 to 66 degrees.

Unfortunately, no major rain system is in sight, but there is a chance of $\frac{1}{4}$ - $\frac{1}{2}$ inch of the precious stuff at the beginning of the week.

COWS ON PASTURE NEED MINERALS!

FREE — CHOICE MINERAL

PROVIDES A COMPLETE RANGE OF MINERALS IN BALANCED AMOUNTS.

The roughages and farm grains that your grazing cows eat do not supply the minerals that are essential to the good health, growth and performance of your herd. IT'S IMPORTANT that these minerals be furnished by supplementary feeding!

PHOSPHORUS is the mineral most likely to be missing in the ordinary diet of cows—COPPER is necessary for blood formation—COBALT is needed for rumen function—CALCIUM is required for bone and teeth development—IRON forms good blood—SALT is needed for proper body functioning and proper digestion—MANGANESE—ZINC—and IODINE are required also. All of these minerals are included in Red Rose Free-Choice Mineral. Only a small amount of mineral is needed for your cows ($\frac{1}{4}$ to 1 lb per week). Fill your mineral feeders with Red Rose Free-Choice Mineral and place them near the hay racks or water troughs. If you do, your cows will be protected against mineral deficiency, and at the same time assured good herd health—and will perform better in the milk line.

RED ROSE DAIRY FEEDS fed with good hay and pasture is the ideal diet for your herd. They're available in many protein levels to suit the roughage you have on your farm. Try them—and see the results in the milk pail where it counts most! Try them—and you'll use them always.
