**Check Your Home To Prevent Poisonings**  
Label everything. Don't depend on memory.

Keep all household chemicals, cleaning agents, and polishes out of children's reach.

Keep all medicines, including aspirin, in a locked or inaccessible cabinet.

Never put a poison or toxic substance in a container designed to contain food . . . such as in a milk or soft drink bottle, or cereal box.

Accept children's curiosity they will eat or drink anything regardless of its flavor.

Teach children that there are some things that are yours, and they must leave them alone.

**LEARN TO JUDGE  
WORKMANSHIP  
IN CLOTHING**

Look for straight, even machine stitching of appropriate length.

Seam edges should be pinked or bound to prevent raveling.

Ample seam allowances and hems are important . hem-

ming stitches should not be visible on the right side.

Be sure plaids, stripes, and large designs are matched at seam lines.

Points of strain such as armholes and waist are reinforced with double stitching in well-made garments.
