OVER TWICE AS STRONG and UNCONDITIONALLY GUARANTEED

NEVER THIS!

When protected by RUST SHIELD, Starline Steel partitions are unconditionally guaranteed against rusting off at the cement line! RUST SHIELD is a protective sleeve of alloy steel, bonded onto the steel partition above and below floor level—the danger line. And the sleeve is packed full of electrolytic rust preventive grease. So partitions just can't rust off. What's more RUST SHIELD increases steel strength. Compared with plain partitions, RUST SHIELD gives over twice the support at the cement line. You can have RUST SHIELD as an option on any new Starline Steel... and only Starline has it. Get full details now.

GET AN EXTRA CUTTING!

FD-100 ALFALFA

Early vigor, amazing regrowth after cutting, and good fall growth means you'll get at least one extra cutting from P-A-G's fabulous FD-100 alfalfa.

Erect growing habit and exceptional standability lets more sunlight down to the lower leaves... speeds growth... assures a very high leaf-to-stem ratio.

FD-100 is a French variety with good resistance to mildew and disease.

If you want the best, plus an extra cutting... select P-A-G's FD-100!
