TEN YEARS AGO

Show — John Frey, eight-year-old Quarryville area youngster, entered his first steer in the 34th Annual Garden Spot Baby Beef Show & Sale this week (August 17) and won the grand championship.

Just to keep things in the family, John's older brother Ernest wrapped up the reserve title.

At the sale, the champion brought 78 cents per pound for a total of \$737.10. The steer was purchased by Diem & Son, Lancaster.

Statement, "Keep out of reach of children."

List of principal hazards, such as, flammable, vapor harmful, causes burns, and absorbed through the skin.

USE PLENTIFUL PEPPERS

Bell peppers have more tang when mature but still green, and more sweetness when completely ripe and red. For top quality, select peppers that are firm, well shaped, and thick fleshed with a fresh appearance. One medium, raw sweet pepper provides healthful amounts of vitamin A and ascorbic acid plus a variety of other vitamins and minerals. Peppers are good either raw or cooked, so don't overcook them. Parboil 3 to 5 minutes if you are going to stuff the peppers.

● **DHIA**

(Continued from Page 13)
agement practices that lead to production savings and increased income.

Advances mentioned by Corley were made by participants in the DHIA Standard Test. Other advances were made under a more limited program of DHIA testing in which co-operators take their own milk samples for testing instead of using DHIA specialists. Just under 600,000 Owner-Sample cows increased production by 70 pounds of milk over the previous year.

Speedwell Lake Is Filling Up

The Speedwell Forge Lake on Hammer Creek is slowly filling up following the poisoning of "rough fish" last week, according to Fish Commission men. The lake is officially closed to any activity at the present time.

Sam Hall, fish warden, said the State will stock bass and possibly black crappie in the lake. He will make his home in the house located near the new bridge at Fleming's Mill.

Fish commission men remained at the dam site until last Saturday, and reported that there were no problems or bad after-effects resulting from the poisoning project.

Are you ready to contract your cattle feeds?

✓ CHECK these feeds before you buy!

The secret of cattle raising is in your feed lot. That's where you will make your profit! Naturally, you'll need a large amount of feed for your steers—and that's why you want to be sure you have an economical and complete supplement to mix with your home grains. Here's where Red-Rose Cattle Supplements can help you.

Red Rose
32 BEEF CATTLE SUPPLEMENT

This is the supplement you will want to use as a mixing ration for your home-grown grains, or you can use it as a protein supplement to balance the feeding of low protein roughages.

Red Rose
50 BEEF CATTLE SUPPLEMENT

This supplement is in mash form. Use it as a mixing supplement and for top feeding on corn and cob chop. Feed 50 Beef Cattle Supplement (the nutrient fortifications are double the levels of 32 Beef Cattle Supplement) at the rate of one pound per head per day.

Available with or without Diethylstilbestrol - or Antibiotics

BALANCED, HIGH PRODUCTION RATIONS will be yours when you use Red Rose Beef Cattle Supplements—and you'll get your beef animals to reach market weights faster. So, plan to stop at your Red Rose dealer soon and place your orders.
