What's New in Feeding Cattle?

Ful-O-Pep Cattle-izer Beef Supplement

An entirely new concept in cattle nutrition opens up new profit possibilities for cattlemen everywhere. Based on a whole new principle in feeding, Ful-O-Pep Cattle-izer Beef Supplement changes the proportions of organic acids produced in the rumen. As a result, up to 20% more energy is available to the animal, as compared to the same amount of regular feed without the new concept.

This extra energy means faster gains, less feeding time to market, and considerable lower feeding costs. For thousands of cattlemen, it means extra profits.

Try the new concept soon.
