

**Peach Crop Cut
40 Percent**

This year fresh peaches are good quality, but they are smaller. The hot, dry summer has given peaches good flavor, but caused smaller

than usual size, says June Wilke, extension home economist, Chester County.

In addition to dry weather, spring freezes reduced total supply. But in spite of adverse conditions, about 60 percent of Pennsylvania's peach

crop will come in. Peak supplies will be marketed in late August and early September.

Handle peaches carefully in the store and at home. Don't squeeze or pinch them. Look for firm, fresh looking peaches that have a creamy or pale yellow background. Red blush or color on the peach's cheek varies and is not always a sign of quality.

CANNING
You'll get three to four medium peaches from a pound. Buy them by the bushel —

that's 48 pounds — for canning or freezing. This amount yields between 34 to 48 pints, depending on fruit quality.

Although most varieties are suitable for freezing, or canning, there are a few guidelines. Peaches are best for freezing or canning at the peak of the season. Elbertas are recommended for canning only; the Haven varieties are considered best for freezing, but can also be canned. All

Haven varieties, except the Halehaven, are resistant to browning.

When a bushel of peaches costs between \$3 to \$4, a pint of home canned or frozen peaches will cost 15c to 17c. This includes the cost of containers and sugar.

**New Area SNF
Records Posted
For Holsteins**

The performance records of registered Holstein cows in area herds have been listed in an official production testing report from the Holstein-Friesian Association of America. Included are levels of solids-not-fat (SNF) production for individual animals

Listed among the latest official records were:

Roaring Maples Regal Tiny, a seven-year-old registered Holstein cow, owned by Roy H. & Ruth H. Book, Ronks, produced 15,530 lbs. milk, 642 lbs. butterfat, and 1,487 lbs. solids-not-fat in 305 days

Nancy Leader Knollwood, a five-year-old registered Holstein, has credits of 22,530 lbs. milk, 960 lbs. butterfat, and 1,951 lbs. solids-not-fat in 351 days. Red Rose Nancy Skyliner, a three-year-old, has produced 19,390 lbs. milk, 643 lbs. butterfat, and 1,618 lbs. solids-not-fat in 334 days; Inka Star Betty, a five-year-old, had 22,490 lbs. milk, 842 lbs. butterfat, and 1,868 lbs. solids-not-fat in 350 days. All are owned by John W. Eshelman & Sons, Lancaster

Trout Spring Sov Duane Pontiac, an eleven-year-old registered Holstein cow, owned by John E. Kreider, Lancaster, produced 17,520 lbs. milk, 729 lbs. butterfat, and 1,551 lbs. solids-not-fat in 305 days

Valley Run Regal Jane, a five-year-old registered Holstein, has credits of 18,180 lbs. milk, 637 lbs. butterfat, and 1,446 lbs. solids-not-fat in 305 days. Valley Run Sovereign Cinder, an eleven-year-old, has produced 13,614 lbs. milk, 600 lbs. butterfat, and 1,208 lbs. solids-not-fat in 305 days. Both are owned by Arthur D. & Mary K. Wenger, Manheim.

Vista Grande Admiral Anna, a seven-year-old registered Holstein, has credits of 20,930 lbs. milk, 843 lbs. butterfat, and 1,800 lbs. solids-not-fat in 305 days; Glenlap Regal Bess Ruby, a six-year-old, has produced 16,890 lbs. milk, 639 lbs. butterfat, and 1,481 lbs. solids-not-fat in 305 days; Vista Grande Haven Mona, a five-year-old, had 18,300 lbs. milk, 631 lbs. butterfat, and 1,641 lbs. solids-not-fat in 300 days; Elroc Velma Follow On, a five-year-old, had 15,490 lbs. milk, 624 lbs. butterfat, and 1,324 lbs. solids-not-fat in 300 days. All are owned by Carl L. Martan, Ephrata.

STOP THAT DRIP

Leaky faucet bothering you? Well, it may bother you even more if you add up the wasted water. At one drop each second, one faucet wastes a quart of water every hour. That's 7 gallons a day, or 210 gallons a month, or 2,520 gallons a year

In 1965, for the tenth consecutive year, an increase was recorded in the consumption of milk, through the National School Lunch and Special Milk Programs. Approximately six billion half pints of milk were consumed by children participating in these programs in 1965
