6th Grape State, Pa. Considering Wine Industry

dustry in Pennsylvania is being explored by the State Grape

Marketing Advisory Council.
The group is the sixth commodity council formed in the state to help develop new and stronger markets for Pennsylvania agricultural products. Pennsylvania is the nation's fifth leading grape producing state, with a crop valued in excess of \$6 million annually.

State agriculture secretary Leland H. Bull told council members that a much more intensive marketing effort will be required to cope with "production increases anticipated in the years immediately ahead." He pointed out that the number of grape vines in commercial vineyards has increased approximately 20 percent in the past three years.

In addition to investigating the possibility of a wine industry as a new market for grapes, the council also will seek methods of expanding both fresh and processing markets.

The council, at its organizational meeting in Erie, named Douglas P Moorehead, chairman: George F Luke, vicechairman, and George Sceiford, secretary All are from North East, Erie County

"No Grazing" Period **On Diverted Acres Set**

The "no grazing" period for diverted acres under the 1967 Feed Giain Piogram staited April 1 It will continue for the following six months until October 1. according to Lancaster County Agricultural Stabiliza-tion and Conservation Committee chamman Fred G Seldomiidge

Faimers who are diverting acreage under the program have agreed not to graze the diverted acres during a specific six month period of the growing season, and not to cut hay from diverted acres at any time during the year.

Farmers participating in the Conservation Reserve and Cropland Adjustment Programs have agreed not to graze land diverted under these programs or harvest hay from such land any time during the life of the agi eements

Lancaster County farms signed up to participate in the 1967 commodity diversion programs for corn and grain sorghum number about 310, Seldomridge noted.

Freeman Sets 1967-68 **Dairy Products Prices**

Secretary of Agriculture Orville L Freeman has announced that daily products acquired by the Commodity Credit Corporation under the daily support program would not be offered for sale back to the domestic market at less than 110 percent of the purchase prices.

At the same time, it was announced that the present purchase prices for daily products would be continued.

On Oct 14, 1966 the Secretary announced that support pieces then in effect, \$400 a hundredweight for manufacturing milk and 68 cents a pound for butterfat in farm separated cream, will be continued in the 1967-68 marketing year.

These support prices had been increased on June 29, 1966 from \$3 50 a hundredweight for manufacturing milk and 616 cents a pound for butterfat, and the dairy product support buying prices were increased correspondingly to those now in ef-

۱.

Power and power outlets to hustle fully equipped planters - 2- and 4-row

You can turn a lot of ground per day plowing 4 furrows or disking an 11-foot swath per pass at a steady 4-1/2 to 5 mph. That's par for a "2020." The news is just as good when it's planting time. "Floating" control, through cylinder or hitch, makes for constant planting depth over all terrain. And the "2020's" Power-on-Demand hydraulics lets you raise and lower fully loaded, fully equipped planters effortlessly, positively. The 8-speed transmission puts the exact planting speed you like at your fingertips. The proof is in the driving...be our guest for a field test. Credit available.
