

WEBWORM DAMAGE ON NEW ALFALFA SEEDINGS

Sometimes serious damage is done to newly planted August alfalfa seedings by the webworm, which is quite similar to the ordinary garden cut-

worm. The webworm chews off and damaging. Therefore, care- the newly emerged alfalfa seedings, resulting in their ful attention is necessary to death. Webworms are usually observe the feeding activity not active in the daytime, but when is first starts. Spray as soon as the feeding activity is observed. Use Para- clods. They have black spots thion at the rate of one pint of over the body, and are slightly 4 lbs/gal. emulsion or Carbaryl (Sevin) at the rate of one pint hairy. Although the webworm infes- of 4 lb. flowable or 10 oz. of tations occur only infrequently, 80% WP. Use at least 20-25 they are usually very severe gallons of water per acre.

BRANDON SILOS

To afford the unequalled Brandon 10-year guarantee for today's larger diameter silos, the Brandon Silo Corporation has engineered a new larger and heavier "Sine-Wave" corrugated stave. The new Brandon corrugated stave is the most perfect and durable silo stave that is possible to make.

Lasting beauty incurred in the new "Sine-Wave" corrugated stave by the incorporating of a special blend cement. It is unnecessary to "White-Coat" the silo for appearance. Your new Brandon silo will be distinguished and permanent.

4-H NEWS

"What's Cookin'" Club

The 4-H What's Cookin' Club met at the home of Leader Mrs. Wilhs Bucher recently. Joanne Spahr, president, conducted the meeting. Roll call was answered by each girl naming her favorite salad.

The girls prepared a meal consisting of crispy salad, waffles and syrup and milk bars. During the business meeting the group decided to accept the 4-H County Project and sell light bulbs Denise Jurell is in charge of this project.

The club members will meet at the Bucher home on July 27 at 10 a.m. and prepare their dinner. A program of music and recitations will be presented for the guests at Luther Acres during the afternoon.

HILLTOP STITCHERS HEAR FIELD DAY REPORT

Meeting at the Brunnerville Fire Hall, July 17, the Lexington Hilltop 4-H Stitchers heard a report on the recent 4-H Field Day activities.

On July 13 six girls and two leaders — Mrs Thomas Smith and Mrs Mevin Keith — attended 4-H Field Day Girls representing the club in the posture queen competition were Candace Seaverling and Debra Kleinfelter

Following the business meeting, members worked on their various projects.

DRUMORE SEWING CLUB TO SELL LIGHT BULBS

by June Aaron, Reporter

Meeting at the Chestnut Level Church House, July 12th, members of the Drumore 4-H Sewing Club heard Judy Longnecker announce the club would be selling light bulbs

this year as a fund-raising effort.

Each member received a bag with four packs of assorted bulbs, with more to be available from Mary Douts, if needed.

In addition to the ten per cent commission to be paid on bulb sales by the manufacturer, there will be cash prizes for the clubs selling the most light bulbs.

GUERNSEY CLUB HAS FIT, SHOW DEMONSTRATION

by Jesse L. Balmer

Meeting at the home of Nelson, Marvin and Dwight Landis, 1804 Hempstead Road recently, members of the Lancaster County 4-H Guernsey Club played baseball and saw a fitting and showing demonstration by Jesse and Cynthia Balmer.

In the business session, members voted to go to a baseball game at Baltimore.

Associate County Agent Victor Plastow reminded members of the upcoming 4-H county dairy roundup August 1 and 2 at the Guernsey Sale Pavilion.

A doggie roast was held following the meeting.

PRODUCTION OFF

HARRISBURG — The state's dairy farmers produced 287 million quarts of milk in June according to the Pennsylvania Crop Reporting Service This was two million quarts less than produced in June, 1966.

recutter High-Moisture Corn

Gehl "400" Recutter fits short or long trough blowers. Slices high moisture ear corn, low moisture silage, or hay to palatable, tasty livestock bites. Every kernel is cut to just the right size ... so it doesn't (1) pass through livestock undigested (2) become unpalatable to livestock (3) lodge in mechanized equipment. Feed is cut (water may be added at the blower) and elevated to silos with one power unit. Cutting cylinder consists of four hardened steel 20-in knives, operating at 1700 RPM. Screen sizes range from 1/2-in. to 3-in.
