

PA. CATTLE ON FEED DOWN 15 PERCENT JULY 1 total was down 15 percent. Livestock feeders in the state reported 47,000 head on July 1. This compares with 55,000 a year earlier and 76,000 on April 1 of this year, according to the Pennsylvania Crop Reporting Service. Fed cattle marketed during the past quarter totaled 41,000, up 2,000 or 5 percent from a year earlier. Placements during the quarter totaled 12,000. Expected marketings for the percent below the 34,000 marketed during the same period a 5,000 decrease for a drop of July-September quarter at 30,000, if realized, would be 12 in 1968.

HIGH MOISTURE CORN CLINIC

Program featuring...

Dr. Marcus Haggard on:

- Why Hi-Moisture Corn is your most profitable way for.
Beef - Dairy - Hogs - Sheep
- Receiving cattle in the feedlot.
- Starting pigs & finishing on Hi-Moisture corn.
- Why cornlage (dry mature corn silage) is the only way to go
- High moisture ground ear corn
- Haylage, the BIG PROFIT CROP

If you are thinking of building corn storage wet or dry, be sure to attend and get the latest facts on the Harvestore System.

DR. MARCUS HAGGARD was born and raised on a Kansas farm, graduated from Kansas State University as a veterinarian. He practiced in Indiana as a large animal practitioner for 8 years, and manufactured livestock equipment for 8 years. He owns and operates several businesses and is retained by equipment companies and banks as a consultant and speaker.

Last year Dr. Haggard spoke to over 100,000 people in the United States and now appears with regularity before groups of Production Credit Associations, Federal Land Banks, livestock association groups and other key agriculture groups throughout the United States.
