

GRANGE NEWS

GRANGE #66

Rev. Howard D. Huddleson, pastor of the Fulton Methodist Circuit, will give a talk on "Flags" and display his flag collection at the next meeting of Fulton Grange #66 at Oakryn, October 23. There will be a skit entitled "A Family Affair" given by Mrs. William Walton, Ambrose Giffing, Richard Nye, Mrs. Susan Fite, Thomas Galbreath, Miss Linda Barnes, Mrs. Jesse Wood and Clifford Holloway III. There will also be special music. Boy Scout Troop 330 will be at the Grange Hall at 8 p.m. to receive contributions for their paper and scrap drive. The Youth Committee invites everyone to "The Trip to the Haunted House on Knobblers Hill" Saturday, October 28, 8 p.m., leaving from the Grange Hall. Come masked.

GRANGE #71

Lancaster County Pomona Grange #71 held its fall meeting October 14, 8 p.m. at Fulton Grange Hall, Oakryn, with eighty people in attendance. Pomona Master, Charles G. McSparran conducted the business session when the Pomona Grange went on record opposing the Lancaster Co. Health Unit which has been tried elsewhere and abandoned because of increased taxes it created and was found to be of no value. This measure will be on our ballot this fall.

They adopted a resolution opposing the abolition of the Pa. Milk Cont. of Commission and the creation of a nine-man board to control prices as suggested by the Governor. They went on record demanding the Governor and other elected officials that they awake to their

responsibilities in maintaining law and order on the highways and in other segments of the state. They opposed HB 1521 which would grant the Secretary of Highways the right to condemn land for highways before needed and to condemn land for private and public organizations who need to relocate because of displacement due to highway construction.

The following officers were elected for a two-year term and will be installed at the January 20 dinner meeting to be held at 7 p.m. The Executive Committee will secure the meeting place: master, Charles G. McSparran; overseer, Loran Brinton, lecturer, Mrs. Charles McSparran; steward, Thomas Galbreath; assistant steward, Stanley Stauffer Jr.; chaplain, Melvin Boyce Sr.; gatekeeper, Ambrose Giffing; treasurer, Norman Wood; secretary, Mrs. Gladys Eby; cere, Miss Elaine Galbreath; pomona, Mrs. Joseph Hess; flora, Mrs. Jesse Wood; lady assistant steward, Mrs. Stanley Stauffer Jr.; executive committee member, Clifford W. Holloway Jr.; finance committee member, Henry Wenger; and pianist, Mrs. Melvin Boyce Sr.

Thirteen candidates received the Fifth Degree. Mr. and Mrs. Charles McSparran will be delegates to the ninety-fifth session of the Pa. State Grange which will be held at Gettysburg, October 23-27 and Mr. and Mrs. Loran Brinton were elected alternate delegates.

Advertising revenue of daily newspapers in 1966 (\$4.9 billion) broke all newspaper records; topping 1965 revenue by 9 1/2% and nearly doubling the dollar volume of television. Advertising revenue of weekly newspapers in 1966 is estimated to exceed \$675 million.

For The Farm Wife (Continued from Page 14)

strawberry, pick bar up by the stick and turn over in coconut or coconut-nut topping until covered. For chocolate bar, smash miniature marshmallows between thumb and forefinger and use to make comic faces. Insert bars in slits made in foamed polystyrene or a milk carton. Freeze.

BROWNE COCONUT-NUT MIXTURE

2 tablespoons butter
1 cup coconut
1/4 cup chopped pecans
1/2 teaspoon salt
1/2 teaspoon mace
In small skillet melt butter; add coconut, pecans, salt and mace. Heat until coconut is brown, stirring constantly. Cool.

BRIDGE BRITTLE

1/4 cup butter or margarine
3/4 cup light brown sugar, firmly-packed
2 tablespoons light corn syrup
1 teaspoon ground cinnamon
1/4 teaspoon salt
1 1/2 cups wheat honeys cereal
1 1/2 cups rice honeys cereal
2 cups very thin pretzel sticks
1 cup chopped nuts
Melt butter or margarine and brown sugar in skillet over low heat. Stir in corn syrup, cinnamon and salt. Add cereals, pretzels and nuts. Stir until well coated. Spread on wax paper to cool. Break into bite-size pieces. Store in plastic bag. Makes 8 to 9 cups brittle.

Enrollment at Journalism Schools was up 16.3 percent in 1966 over 1965 (22,339 vs. 19,229) and up nearly 100 percent over 1960.

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

Keep Curtains and Draperies Looking New
Prolong the life and appearance of your curtains and draperies. When possible, reverse curtains and draperies from side to side and from window to window after each cleaning. Repair rips and breaks as soon as they appear. Arrange or anchor your curtains so they don't pick up dust or rub on the window sills. Because glass fabrics have low resistance to abrasion, prevent them from rubbing or touching another surface. Protect your draperies from prolonged exposure to sunlight by using a lining in them, either separate or sewn in.

THOMAS

Avoid allowing curtains or draperies to get wet from rain. **Salt Has Many Uses** Salt production in the United States increased almost five percent last year. The United States is the world's leading salt producer accounting for almost 30 percent of the total world's salt, worth about 224 million dollars. Besides table use, salt is used for industrial purposes, highway snow and ice removal, animal feed supplements, fertilizer, and processing some varieties of herbs and spices. **Tips on Buying School Clothes** When you buy school clothing for your children, look for construction details that insure quality garments and longer wear. Reinforcements, such as dou-

ble fabrics, double stitching, top stitching, rivets, bar tacks, and short stitches, are especially important at the crotch, armhole or under seam, pockets, elbows, knees and closures. Look for seams having a soft, flat finish to prevent irritation and well-finished seams to withstand laundering. The type of seam and finish depends on the fabric and style of garment. Garments cut on the grain of the fabric will be easier to iron and will fit correctly. Hem width for girls' dresses needs to be at least three inches. Hand sewn hems allow you to lengthen garments more easily. Machine-made hems are sturdy and suitable for play garments. (Continued on Page 16)

Chop and bale corn stover with New Holland's new flail pickup!

Here's a way to make good use of corn stover. Chop and bale it with the new attachment for New Holland balers. Use the stover for livestock bedding or for feed. Dry corn stover can be worth \$16 a ton as feed because it contains up to 52% TDN and 6% protein. You can mount this flail attachment on New Holland's PTO Hayliner® 268, Hayliner 269 and Hayliner 275. It's easy to mount—no need to remove the baler pickup. New Holland's flail pickup easily spans two rows. It's 10 inches wider than most other flail pickups! Come in today for complete details.
