

THE GOTTLIEB STROHMAIER of the Year." L. F. Photo FARM, home of the "FHA Farm Family

Progressive
(Continued from Page 1)

without the help of a full-time hired hand. In fact Strohmaier has never had one even while operating his present 148 Chester County acres.

He raises his own dairy replacements and has built up his land with lime and fertilizer according to soil test recommendations.

His progress with FHA has been quite outstanding, having paid off operating loans and showing good net farm income.

No, things are not the same on the Strohmaier family farm. Beside the improvements made in the house that were so badly needed Mrs. Strohmaier says she cried the first night they moved

there, a silo with automatic feed Mr. and Mrs. Strohmaier are lot and a barn addition have a quiet spoken couple — not been added since the original proud — wishing not to be giv- purchase (Continued on Page 7)

Last Year Hogmen Started Over 9 Million Pigs on Purina... WHY?

Results... that's the best answer we know. Folks everywhere, and folks especially around here are finding out that pigs start, grow and finish fast on Purina. Hogmen know they can depend on Purina Research to keep new and approved formulas coming. And from feeding experience they know that Purina's Hog Program pays off in the feedlot with fast growth and low-cost gains.

Join the trend to Purina. We'll be glad to help you keep records so you can see for yourself why hogmen in the U.S.A. started over 9 million pigs on Purina last year. Pigs love Purina Baby Pig Chow, Early Weaning Chow and Purina Pig Startena. Feed out your next bunch of pigs the Purina way.

SILO FOR THIS CORN CROP?

Check us for Price & Erection Date.

BRANDON SILOS

To afford the unequalled Brandon 10-year guarantee for today's larger diameter silos, the Brandon Silo Corporation has engineered a new larger and heavier "Sine-Wave" corrugated stave. The new Brandon corrugated stave is the most perfect and durable silo stave that is possible to make.

Lasting beauty incurred in the new "Sine-Wave" corrugated stave by the incorporating of a special blend cement. It is unnecessary to "Whire-Coat" the silo for appearance. Your new Brandon silo will be distinguished and permanent.

Short on down-payment

for the equipment you need?
Ask about Equity Financing!

Cash or trade-in is no longer your only possible route to modern machinery. Now, there's a third way to make your down-payment. It's called Equity Financing!

Keep in mind the equipment you now own has a market value. Under the John Deere Credit Plan, you can use this value (or equity) as all or part of your down-payment. No trade is required. For example, suppose you want to move up to a new tractor and still keep your old one. Instead of parting with the machine, you simply "trade in" its value.

Make sure you get financing as modern as the equipment you're planning to buy. See us for full details!
