NATURE WALKS

Nature walks are becoming a popular feature at the Gifford Pinchot State Park, in northern York County

Ray Bubb, a naturalist employed by the Bureau of State Parks, Department of Forests and Waters, conducts the nature walks each Saturday, beginning about 8 a.m.

Planned for individuals and groups, the nature walks began early in April and featured wildflowers and birds. Another highlight was bird banding with a similar program planned for later this month or early May.

"Usually," said Bubb, "each nature walk deals with some phase of nature depending on the time element."

Persons interested in joining the group are to assemble Saturday mornings at the Cone-wago Day Use area, located off Rt. 74 at the south end of the park.

Get these features with...

NuGreen
urea fertilizer

- **45% NITROGEN**
Highly concentrated "NuGreen" means less material to handle, time and labor savings.
- **LEACH-RESISTANT**
"NuGreen" holds to soil particles chemically, feeds plants when they need it most.
- **NON-CORROSIVE**
Organic "NuGreen" won't eat-up equipment... makes it last longer.
- **FREE FLOWING and NON-CAKING**
"NuGreen" comes in easy-to-use shot form for spreading. It also dissolves readily in water for spray or irrigation application.

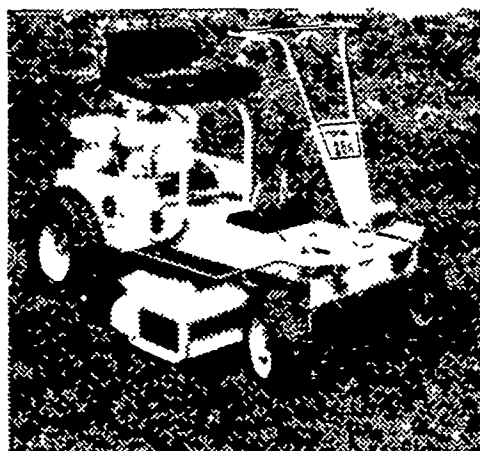

For profit boosting yields and the best dollar return on your investment, practice a fertilization program based on a complete fertilizer and DuPont "NuGreen" urea fertilizer.
