

● NEPPCO

(Continued from Page 17) referring to all kinds of people who have one thing in common — a desire to learn more about eggs and egg quality," Dr. Howes concluded. Tuition, room, and meals from Sunday dinner through Thursday lunch, plus textbooks and all necessary materials is \$90.00. Brochures giving complete information about the school, including an application for enrollment may be obtained by writing to: NEPPCO, 10 Rutgers Place, Trenton, N. J. 08618.

● Pigeon

(Continued from Page 21) the pigeons across the country. Leading ornithologists agree that man brought about their destruction through this practice, and not through some freak of nature.

It is a hideous story and man never made another total slaughter like this. Had but a few been spared they would be a pleasure to behold today.

Martha, the last passenger pigeon, died in the Cincinnati Zoo in 1914 and is now on exhibition at the Smithsonian Museum. Fortunately there is also a pair on display at North Museum and Dr. Price can tell much more about them.

Looking up through the scraps of woodland remaining in Warwick Township, we wonder how it was when the skies were full and booming.

HOW CAN I HELP MY SOWS FARROW BIG LITTERS?
Feed Purina Sow Chow, of Course.

Yes, Purina Sow Chow has been built through many years of careful nutritional studies on over 5,000 litters of pigs at Purina's Research Farm.

Purina Sow Chow has everything your sow needs to help her develop, farrow and nurse big litters of husky pigs and maintain her own body weight at the same time.

Authorities estimate that 20% to 33% of all pig embryos conceived are resorbed by the sow early in the gestation period, if she is fed a poorly balanced ration.

So hogmen who neglect the ration they give their sows, lose lots of pigs they never even see!

That's why it pays to feed a proved ration like Purina Sow Chow.

Stop in and see us today about either Purina Sow Chow Complete or Purina Sow Chow Concentrate to mix with your grain.

Pick a John Deere
53 h.p. 2020
for utility work,
get this bonus...

High clearance plus
precision speeds
for cultivating —
mechanical and chemical

The "2020" is a compact, maneuverable utility tractor second to none. But it's definitely not limited to utility work. With up to 24 inches of underneath clearance, it'll handle lay-by cultivation. With its variable-speed engine and 8-speed transmission, you can pinpoint the exact speed you need for precision 2- and 4-row cultivating, and for accurate spraying. Clean design and narrow hood give you good row visibility. Power Steering makes it easy to plow weeds, not crop. Be our guest for a "2020" field test. Credit? Sure.
