\$159.00

Large Econ-O-Creep Calf Feeder
Large capacity 30 bushel model handles up to 40 calves. Double pens, troughs and canopies. Openings adjust to calf size — Heavy galvanized construction — simple feed flow adjustment. Strong angle stalls and fences. Model No. 83-25-0000.

\$33.55

Heated Double Bowl Waterer
Boers retain heat. Heavy gauge galvanized steel with trough of 1 1/2 gauge boilerplate welded. Rubber stopper drain in end of trough makes flushing out dirt easy. Galvanized steel mudguard in trough keeps hogs from riling up dirt and protects stopper. Gas or automatic electric heat.

\$85.20

40 Bushel Round Feeder
Large diameter, big capacity in a truly low standing feeder. Easy filling and feed inspection. Ruggedly built of heavy gauge, spun galvanized steel. Deep trough with savor lip. Positive feed adjustment crank at elbow height. 12 doors. Choice of steel or cast iron trough. Special agitator prevents bridging. 58 dia. 45 high.

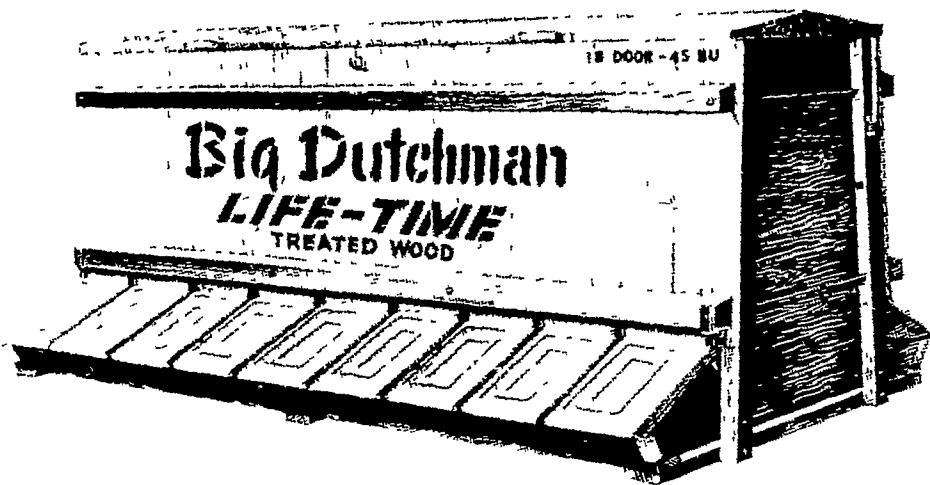

\$95.40

Low Profile 60 Bushel Round Feeder
Same quality feeder as at left but with one extension band for 60 bushel capacity. 58" dia. 40 1/2" high.

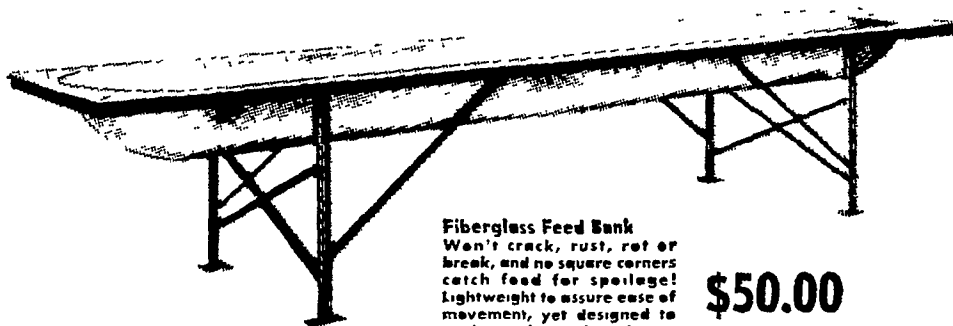

\$105.60

80 Bushel Round Steel Feeder
Round feeder with 2 extension bands. Steps available for feed inspection. 58 dia. 76 high.

Life-Time Treated Wood Feeder
Heavily saturated with concentrated water repellent. Protects feeder from moisture, rats and insects. Salt and minerals will not harm this rugged unit. 4 sizes, 8 to 18 doors, 20 to 60 bushel.

\$120.00

Fiberglass Feed Bank
Won't crack, rust, rot or break, and no square corners catch feed for spoilage! Lightweight to assure ease of movement, yet designed to withstand cattle abuse. Adapts to single bunk, straight in-line or curved fence line applications.

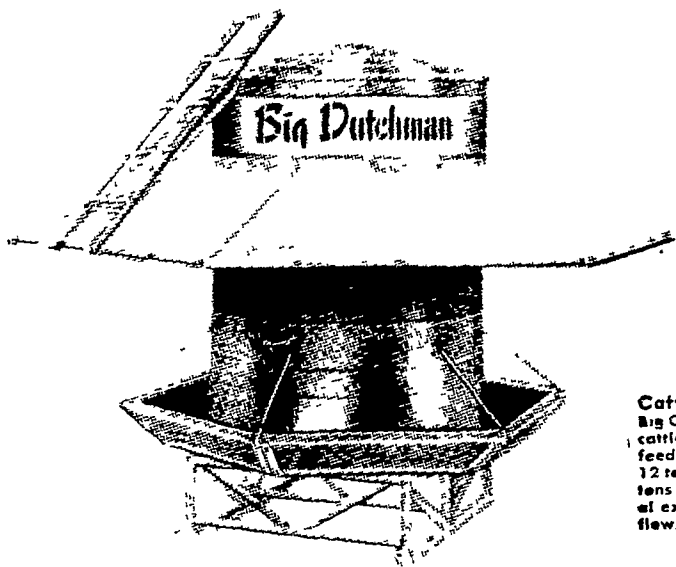

\$50.00

AUTOMATIC DRY HOG FEEDING SYSTEM

Automatically conveys feed from bulk bin to the rugged anti waste feeders located in each pen. Drastically reduces labor and increases feed conversion for top quality hogs.
