

## GRANGE NEWS

Fulton Grange #66 observed June Dairy Month, at their regular meeting at Oakryn June 10, by making fifty four quarts of homemade ice cream which was enjoyed together with luscious fresh strawberries by approximately eighty people. The Home Economics Committee was in charge and the men turned the freezers.

During the program in charge of Mrs. Jesse Wood Miss Carole Holloway, daughter of the Grange Master, was presented with a transistor radio by Mrs. Melvin Shaub who was in charge of the local sewing contest. Miss Holloway won this radio for being the third place winner in the Pa. State Grange elimination of the National Grange Sewing Contest, in which over 600 contestants participated. It was entered in class B which was for contestants between the ages of 12 and 17.

Charles Temple Jr., President of the Solanco School Board, was the speaker at this meeting. He explained the need for additional revenue for school purposes this year, giving a birds-eye view of their present financial status and quoted expected

returns from possible new sources of income. Mrs. Estil Vandament gave a reading "What Is The Grange" written by Mrs. John W. Scott, Master of the Pa. State Grange. Mrs. Freeda Huber gave a reading "Old Glory, Fly It On June 14."

Clifford W. Holloway Jr. presided at the business session when it was decided to observe "Go-to-Church Night" June 16, 8 p.m. at the Grange Hall with Rev. Roy W. Townsend the speaker. Chaplain, John M. Galbreath was in charge of the service. It was preceded by a covered dish supper at 7 p.m. in charge of the Youth Committee. Everyone brought a meat dish and another dish and their own place setting. Tablecloth, rolls, butter and beverage were provided.

The Grange went on record opposing Sunday sales of liquor in Pennsylvania. A donation was given to the Fred Kreider fund.

A home economist from the Penna. Power and Light Co. will give a small appliance demonstration at the next meeting June 24.

### Durable Coins

The average life of a coin struck of nickel is estimated to be 50 years.

## PENNSYLVANIA EGG-TYPE HATCH DOWN 7 PERCENT

Production of egg-type chicks in Pennsylvania totaled 2,987,000 during May, according to the Pennsylvania Crop Reporting Service. This figure is down 7 percent from May 1967. The hatch for the first 5 months of 1968, at 11,558,000, is 17 percent less than the January-May hatch in 1967. Broiler-type chick production totaled 5,709,000 during May, 6 percent more than the May 1967 hatch. The January-May cumulative broiler hatch for 1968 (26,309,000) is 12 percent more than the comparable period in 1967. The combined total of egg-type and broiler-type chick hatches during January-May 1968 was 37,867,000 — 1 percent more than the comparable 5 month hatch in 1967. The total broiler and egg-type hatch for May is 1 percent less than the 1962-66 average.

### Bathtub Pills

Sixty years ago, aspirin was made in bathtubs because pharmaceutical manufacturers could not find any economical alloys that could provide the required corrosion resistance. Today the purity of the product is taken for granted because aspirin is made in vessels of nickel stainless steel.

### Future Mailmen

One-day mail service to any place in the world could well become commonplace and inexpensive in the future. Messengers would be relayed from local "post offices" to the nearest satellite. The satellites (powered by nickel-cadmium batteries constantly under charge from solar cells) would then redirect the message to earth.

### Child's First Visit Away From Home

Visiting at a relative or friend's home for a few days can be a delightful experience for a young child. But you can expect him to experience some moments of loneliness and perhaps homesickness. To help your child's first visit away from home to be a pleasant experience, keep these tips in mind:

Help the child understand why sounds, flavors, and odors may be different from those he's used to. Time schedules may also be different.

Lack of certain sounds often causes loneliness. He may become temporarily depressed because he misses hearing the voices of people and sounds of things closely associated with home. He's most likely to have these feelings during the first few hours of the visit when he's tired or hungry or when night comes.

Help overcome loneliness by providing sound activities which might include exercise to keep the child occupied.

THOMAS

You could teach him the value of quiet moments. Such sounds as a crackling fire, creaking branches, chirping crickets, and the pattering of raindrops against the roof or window can seem loud when all else is quiet. But if he's busy listening, he (Continued on Page 12)
