## Spotlighting Game Outlawed After Midnight

The spotlighting of big game between midnight and sunrise will be illegal in Pennsylvania after September 1, the Game Commission announced this week.

Governor Raymond P. Shafer has approved legislation which makes it illegal to cast the rays of a spotlight, headlight or other artificial light upon big game animals on a highway, in a field, woodland or forest from midnight prevailing time until sunrise.

"Of course the law does not apply to a motorist suddenly confronted with a deer darting into the path of his vehicle," Game Commission Law Enforcement Chief James A. Brown said. "It is intended to prevent the deliberate practice of spotlighting big game animals."

Spotlighting of deer is a popular practice in the state being enjoyed by the non-hunting public as well as sportsmen. The new law will not curb the sport during evening hours; it only curtails the practice after midnight.

Another problem brought about by spotlighting is the danger of slow moving vehicles. The driver and occupants of the car become so engrossed in seeing the deer, that they fail to realize the hazard they present to other traffic. Many spotlighters leave the road and enter cultivated fields. When this happens, the landowner sustains costly damage to crops.

"Oats — ough — I couldn't bear the sight of them — or hay either. Sometimes I could hardly catch my breath, and the least little trot made me cough 'til I thought I'd die."

"I had the heaves and I was miserable."

"Then my owner discovered New Hope Complete Horse Feed—no oats, nothing of any kind to stir up my allergies. My, how good it felt to really eat again, to be free from that terrible, hacking cough."

"If you're a victim of the heaves too, send your master as fast as he can go to get some Wayne New Hope Complete Horse Feed. Of course he has some other excellent horse feeds for horses that can still eat hay, but as for me, I'm sticking with Wayne New Hope Complete Horse Feed."
