

THE FUN SIDE OF 4-H is evident at the 4-H Soil and Water Conservation Club "doggie roast" and picnic. The members, leaders and parents enjoyed this outing at the Vincent Hoover farm near New Providence. The event also included a field trip to observe good con-

servation practices in strip cropping, contouring and terracing. There were 52 members, leaders and parents present including Jay W. Irwin, Assistant County Agent.

Hayliner°268 baler has plunger mounted on sealed bearings!

The Hayliner 268 has its plunger completely mounted on sealed-ball-bearing rollers. This design gives you lower fuel and power requirements, longer plunger life, less maintenance, fewer knife adjustments and smoother overall performance. New Holland's exclusive feeding system sweeps hay into every corner of the 14" x 18" bale chamber—assuring square, uniform bales. Let us show you more of the quality features of this popular baler. Stop in soon!
