KNOWING TEXTILES MAKES BETTER SHOPPERS

When shopping, look for labels and handtags. You can't see or feel most of the finishes that have been applied to fabrics, so it's important to read all labels and handtags carefully.

A label should tell you how the characteristics of fibers and fabrics made from them. Advantages, care, and limitations of finishes are described in detail.

To aid you in learning about labels, fabrics, and finishes, The Pennsylvania State University

- 3/4 cup cooked or canned shrimp, chopped

Gradually add the cream to the cream cheese, blending until smooth. Add the remaining ingredients and mix well.

Farm Women

SOCIETY 23

Society of Farm Women No. 23 met recently at the home of Mrs. Andrew Nissley, Washington Boro R. #1, for a covered dish luncheon, with each person bringing a covered dish and its recipe. After the luncheon, and the copying of recipes, a short business meeting was held, conducted by Mrs. J. Clayton Charles, president. Devotions were by Mrs. Robert Westcott, R. D. #2, Lancaster. The group will be going to Embreeville State Hospital in the near future to provide an evening's program. The following committee is planning for the program:

Steak Cut Has Many Names

Spencer, Delmonico, and rib eye steaks come from the same muscle of the beef carcass — the large center muscle that's the tenderest portion of the rib cut. Learn to recognize the muscle in that cut so you'll be able to recognize it no matter how it's named. Buy cuts with threads of fat through the lean for tenderness and flavor.

Tips On Buying Children's Clothes

Through wise selection of styles, sizes, and fabrics, you can save time in washing, ironing, and mending children's clothes.

Buy clothing you can put into the family wash and that needs only touching up with an iron.

Avoid buying garments you must handwash or dryclean, except for special occasions.

Buy fabrics that are soil resistant, colorfast and shrink resistant.

Consider buying washable woolens, permanent press garments, and garments with new

fabric finishes.

Buy clothes that are simple in construction, easy care, such as knits, seersucker, and cotton and synthetic blends.

Let crease resistant clothes drip dry or dryer dry with care

When farm jobs demand all the features of a big John Deere Tractor...

but not all the horsepower...

a John Deere 53 h.p. 2510 is right on the money for you

The "2510" is a "4020" in everything except horsepower. Power Shift, yes. Power Steering and Power Brakes, yes. Power-on-Demand implement control, yes. Power-actuated PTO, yes. Power Differential Lock, yes. No other tractor of the "2510's" size matches its bigger brothers that closely. Try it.

NOW! Special waiver of finance charges on new John Deere tractors — March 1, 1969.
