town, Pa., and a fresh Sr. Yearling by Kingpin at \$700 from Crissons Farm of Lewisburg, Pa.

Third high selling individual was another Kingpin, Sunrise Knoll Kingpin Lass, at \$990.

Purchased by Walter B. Lehman of Lawn, Pa. she was consigned by Charles Plushanski of Kutztown.

Local purchases were made by: Vernon Umble, Christiana, two for \$850 and \$725; Samuel F. King, Ronks, one for \$750 and Amos B. Lapp, Gordonville, one for \$575.

NEW INTERNATIONAL® tractors are here, with POSITION COMFORT DESIGN

Get the full comfort story right here on these new 5 and 6-plow tractors—and see how you'll finish the day less tired, and with more work done. Here are a few of the many standard and optional features we can offer you on the 756 and 856:

- New type of seat adjusts up and down, hydraulically, slides fore and aft, tilts, adjusts to your weight. That's living-room comfort in the field.
- The steering wheel adjusts to five different positions to put it exactly where you want it.
- Popular "H" pattern gear shift, plus new, easier shifting.
- Foot pedals have curved face, "fit" your foot from any angle for extra comfort, reduced fatigue
- Platform is now 40% wider for extra footroom.
- Many work-proven features. For instance: exclusive torsion bar draft control keeps you plowing evenly... Torque Amplifier boosts pulling power and doubles your choice of speeds.

They're waiting for you here—the new International and International Farmall 756 and 856 tractors. Come on in soon and try them out.

● For The Farm Wife
(Continued from Page 14)

25 minutes, until thoroughly heated. 4 servings.

HAM AND CHEESE CROQUETTES

- 2 tablespoons butter or margarine
- 1/4 cup chopped green pepper
- 1/2 cup all-purpose flour
- 1/4 teaspoon ground black pepper
- 3/4 cup milk
- 4 ounces natural Swiss cheese, grated (1 cup)
- 1 pound cooked ham, ground
- 2 eggs
- 3/4 cup cracker meal
- Hot vegetable oil
- 1 (2-oz.) envelope white sauce mix
- 1 tablespoon prepared mustard
- 1 teaspoon Worcestershire sauce

In large saucepan melt butter or margarine; add green pepper and saute until tender. Add 3 tablespoons of the flour and pepper; saute 1 minute. Gradually blend in milk and cook until thickened. Stir in cheese, ham, one egg and 1/2 cup cracker meal; blend well. Turn into bowl and refrigerate until thoroughly chilled. Form into croquettes. Roll in remaining flour; then dip in remaining egg, beaten; and roll in remaining cracker meal. Refrigerate until ready to use. Fry in hot oil heated to 375 degrees on deep-fat frying thermometer for 5 minutes or until golden. Drain on absorbent paper. Prepare sauce mix according to package directions. Stir in next two ingredients. Serve croquettes drizzled with mustard sauce and garnish with parsley sprigs. Makes 8 croquettes and 1 1/4 cups sauce.

Chuck Hunters Urged To Wear Bright Colors

Woodchuck hunters were again reminded this week of the importance of wearing bright, conspicuous-colored clothing, especially headgear.

Pennsylvania Game Commission safety specialists point out that hunting is among the safest of all sports, but accidents do occur occasionally. The wearing of bright-colored clothing is usually credited with bringing about a marked reduction in unfortunate incidents.

Blight's out

There's only one sure way to fight blight. Keep your potato plants covered with an effective fungicide. A protective coating that will prevent blight spores from germinating and entering the plant.

DIFOLATAN 80 Wettable has shown, in test after test, that it can do the job. Excellent protection against both early and late blight. Particularly effective against tuber rot.

DIFOLATAN sticks and stays on the plant, resists weathering from rain or sprinkler irrigation. That means you can maintain your schedule of applications, without worrying about weather or irrigation schedules.

Made with its own wetting agent, so you don't have to add a spreader-sticker in the spray tank. Relatively low hazard to livestock and humans, and since there is no residue in the harvested potato crop you can use it right up to harvest without concern over residues.

Protection against tuber rot is outstanding. When you put potatoes in storage, you'll never know how well you did in the blight fight until you've shipped the last of them. Fields may look reasonably healthy before harvest, but if you put infected tubers into storage, you can find yourself with a costly, heavy cull out of late blight tuber rot infection.

DIFOLATAN works to give you greater yields of healthy potatoes. And bigger, healthier profits. When you fight blight the right way, everything is brighter.
