COCKROACHES ARE AGELESS ANIMALS

Cockroaches are venerable creatures. They were on the earth when history was first recorded.

Any kind of food satisfies roaches. And once they enter your home they use countless instinctive tricks to keep from being evicted.

A Pennsylvania State University correspondence course on household pests and their control tells you how to get rid of cockroaches. Send your name and address with \$1.25 to Household Pests, Box 5000 University Park, Pennsylvania 16802. There are no other charges and a complete course copy comes to you by mail.

Steak Broiling Tip

Turn a steak only once during broiling. Broil it until it's brown on the first side. Then turn and continue cooking the other side.

If you use tongs to turn the steak, you'll prevent the loss of juices a fork may cause.

Guard Against Prowlers

When you go on a vacation, don't advertise your absence to would-be-burglars. Leave shades and blinds in normal position, not tightly shut.

Leave a few lights burning, or use a mechanical device to turn them on at night and off in daytime.

Halt milk and paper deliveries.

Make arrangements to have your lawn mowed.

Have your mail held at the post office, or arrange for a neighbor to pick it up.

Leave a key with a trusted neighbor.

Notify the police of the length of your absence. Tell them who has your house key.

Let Your Refrigerator Help You Get Dinner

Let your refrigerator work to keep you cool during warm weather.

Plan a meal which will wait in the refrigerator until serving time.

The meat for the meal might include a molded salad, cold sliced meat loaf, or cold cuts.

Add one last-minute dish,

such as hot potato salad, which you've prepared beforehand and is ready to reheat.

Porterhouse is often considered the best steak. It usually sells at a higher price than other bone-in steaks. It has a generous section of tenderloin which can be removed and served separately as filet mignon.

T-bone is similar to porterhouse but with a smaller amount of tenderloin.

Strip loin is the same as the

Two important things when borrowing money

You need a sharp pencil plus the specialized financial advice of Farm Credit to determine how your financial needs can best be served. Farm production must be maintained, even increased if possible. Providing the financing to insure this is Farm Credit's job. Farm Credit loans are available now for any sound farm need. And, at realistic rates. Farm Credit interest is based on the unpaid balance of the loan. That saves you money.
