Italian AFS Student Spending Year Here

Nicola de Cesare Remanzacco, Italy recently arrived in Lancaster County to spend a year under the sponsorship of the local American Field Service Chapter.

Nicola is catching his breath and getting accustomed to his new environment following a 10 day trip to America aboard a ship with 500 other students. En route to America, he noted, the students practiced American techniques. He was taken on a bus tour of New York City before arriving in Harrisburg, where he was met by his hosts, Dr. and Mrs. Arthur S. Griswold, 518 S. Broad St., Lititz.

Upon meeting the Italian youth, his fair complexion and blue eyes aroused considerable comment. Nicola quickly remarked, "My ancestors are Dutch-Italian." Some Dutch is still spoken in the area in which he lives and he mentioned that German and Slav languages are spoken 20 miles from his home.

"America is just as I expected it would be," he exclaimed. "There is no great difference between my home and this area." His home town is located four miles from Udine which has a large number of industries, numerous farms and is also a famous tourist area.

Nicola, who emphatically says he likes food, tasted his first apple dumpling at the Griswold home. "They were really very good," he said.

The fifteen-year-old youth has already met quite a few teenagers at the Woodridge Pool where he enjoys swimming. He likes all kinds of sports and

Nicola de Cesare, Italian AFS student, who likes sports, takes time to play some basketball. Nicola, who will attend Warwick High School, is staying at the home of Dr. and Mrs. Arthur S. Griswold.

plays football with Tom Griswold and a group of boys, even though he thinks it is a rather "rough" game.

Nicola enjoys music and plays the guitar. He likes folk tunes and ballads. "Rock and Roll music hurt my ears," he remarked after hearing a "rock" group perform. "Most of the recorded music that is popular here is just as well known in European countries," he commented. The teenagers in Italy hold their dances in basement areas called "caves."

Nicola, who plans to become a physician, will attend Warwick High School and has met with Steve Palkovic, guidance counselor, to select the subjects suitable for him to pursue during the school term. Subjects of interest to Nicola are science and history. He also enjoys reading.

During his stay in Lititz, Nicola hopes to increase his knowledge of the English language, which he has already studied for three years, and learn more about the American people, their traditions and ideals.

Wrap Newly-Planted Trees

To prevent sunscald, wrap the trunks of newly-planted trees, suggests Craig S. Oliver, extension ornamental specialist at Penn State. This is especially important if the trees are thin barked ones such as red maple, yellowwood, beech, and oak. Use crepe paper laminated or plain burlap. Cut in 4-inch strips, start at the bottom and work up, shingling as you go. Do not cover bad scars without first painting them.

"Were it left to me to decide whether we should have a government without newspapers or newspapers without a government, I should not hesitate to prefer the latter." — Thomas Jefferson

PASTURE COMFORT IN YOUR BARN

Put pasture comfort in your barn now with Jamesway stalls. Quadruple-curve partitions slant diagonally to prevent wedging between cows' ribs. Also, upright is out of the moisture zone. Available with long-life hot-dip galvanized or painted finish.

We install the complete line of Jamesway equipment for your barn.
