

HONDURANS
(Continued from Page 18)

frustrated in suggesting controls such as chemicals that are just not available to his students because they are financially unable to buy them.

Lloyd Marsh, an Iowa corn and soybean farmer is the kind of person who has found personal satisfaction in helping others. Having no livestock, Lloyd does invest his winter vacations in helping people less fortunate than himself. He wrote and asked if he could help us in Honduras during the winter of 1967-68. The immediate reply was yes. During the two months Lloyd was in Honduras he maintained a model garden used for demonstration purposes. He also built model chicken and rabbit coops. While Lloyd was putting his own special skills to use doing these practical things, the agricultural missionary was free to do more face to face work with the national Hondurans.

There are other hopes that

GARDENER'S YEAR BEGINS IN AUTUMN

Autumn is the smart gardener's New York. He prepares for the next growing season by

the Hondurans have, their own countries improved educational programs, increased agricultural research within the country and a rising Gross National Product. However, their own personal ambitions and the church by providing programs for meeting the needs of the total man are the two main hopes. Hondurans have for a better way of life — the kind of life God surely meant for them to have when he created this earth for all to enjoy. — The Staff.

plowing, spading, or roto-tilling his soil, turning under crop debris and other organic materials.

Ground limestone is spread at the same time. According to a Pennsylvania State University correspondence course on soil fertility, about six months are needed for limestone to completely react with the soil. Mixed with the soil in autumn, calcium reaches its full neutralizing effect by planting time.

Phosphorus and potassium fertilizers are also applied in autumn. But withhold the soluble nitrogen until spring else it leaches away with winter's rains.

Do you want to learn more about soil fertility and management? Study the Penn State correspondence course. Anyone can enroll by sending his name and address with \$2.50 to Soil Fertility, Box 5000, University Park, Pennsylvania 16802. Make checks to PENN STATE. A course copy comes to you by mail.

Two Lancaster 4-H Members Named State Award Winners

Dale E. Bushong

UNIVERSITY PARK — Dale E. Bushong, 17, of RD2, Columbia, and Marvin Nissley, 17, of RD1, Mt. Joy, were named state 4-H livestock conservation demonstration contest winners in the 4-H National Awards program.

The two Lancaster 4-H members presented the top livestock conservation demonstration at State 4-H Days last month at The Pennsylvania State University entitled "Internal Parasites."

Carroll L. Howes, assistant State 4-H leader at Penn State, who announced the award selection, said the youths will be eligible to attend National 4-H Congress in Chicago, December 15. They will have an opportunity to compete for honors at a national level. They were

Marvin Nissley

picked from among the 47,000 members who annually participate in the Extension Service youth education program

Dale, the son of Mr. and Mrs. Robert H. Bushong, has been a member of the Red Rose 4-H, Baby Beef and Lamb Club the past eight years. A 1968 graduate of Hempfield Union High School, he is assisting his father on their 150-acre farm.

Active in local 4-H activities, he participated in beef and tobacco club roundups, Rural Life Sunday, officers training, achievement day, and the Lancaster County 4-H Council. He served as caretaker for 23 steers at the Eastern National Livestock Show at Timonium, Md., and was a 4-H exchange delegate to Kendall County, Ill.

Dale served his 4-H Club as president, treasurer, game leader, and song leader.

Marvin, the son of Mr. and Mrs. Wilmer Nissley, has been a member of the Red Rose 4-H Baby Beef and Lamb Club four years. A senior at Donegal High School, he plans to become a farmer.

Also active in local 4-H activities, Marvin participated in three beef roundups, was a member of the planning committee for achievement night, and parliamentarian for the Lancaster County 4-H Council. He showed the reserve champion Angus steer at the Pennsylvania Farm Show.

He served the beef and lamb club as treasurer, news reporter, and game leader.

The two county youths are among 43 Commonwealth 4-H members being selected as state contest winners in the various project categories.

"The 'poor people's march' on Washington cost the U.S. and the District of Columbia governments \$1.7 million, according to Sen. Robert C. Byrd, of West Virginia," notes U.S. News & World Report "According to Byrd's report, the D.C. government bore \$805,682 of the costs."

**IF COWS COULD CHOOSE THEIR FEED...
THEY WOULD CHOOSE RED ROSE DAIRY FEED**

RED ROSE DAIRY FEEDS are available in many protein levels — to fit your particular feeding program and roughages you have readily available on your farm. Use them in your barn! You will be sure that your cows will be eating just about the best feed you can give them!

"Best of Feed.. for any breed"

RED ROSE 14 TEST-COW FEED is a feed you'll find especially resultful. It's a coarse-textured, all-purpose feed — excellent for feeding to your milk cows, dry cows, calves and bulls — at all seasons.

Remember... it's in the milk pail where the results of good feeding really show. Red Rose Dairy Feeds will help to get the milk there. Decide to place them in your feed troughs.

These dealers carry a complete line of Red Rose Dairy Feeds and Dairy Supplements
