**Apply Lime In The Fall For A Better Crop Next Summer**

Fall liming assures proper limestone distribution in the soil, ready for spring planting. The freezing and thawing of winter aid in the process of limestone dissemination. So, why wait, correct your soil deficiency now by liming, and reap a bigger harvest next summer.

**• Credit Meeting**

(Continued from Page 1)

the same as everyone else," he said. "Discount rates are not changing much and we predict the same for next year with the rate fluctuating only ¼ to ½ percent according to the season of the year."

The manager said presently mortgage contracts are being written at seven percent but being billed at only six percent. "We have had a very good repayment schedule which shows farmers have had enough money to meet their obligations," he said.

In the election of directors John H. Gibble, Myerstown R2, and John J. Long, Peach Bottom R1 were re-elected to a three-year term in the Production Credit Association. Long is the current President and Gibble is now the Vice President. Paul M. Herr, Quarryville R1 was elected a director in the Federal Land Bank Association also for a three-year term.

Guest speaker was William M. Musser, Jr. Lancaster attorney Musser edits a syndicated column for newspapers where he answers the public's questions on law. He used questions from this column for his presentation, asking individuals in the audience to answer them before he gave the lawful answer. The questions — some were also asked by persons present — dealt with such subjects as domestic problems, wills and deeds.

Other speakers included Robert Bucher, Assistant Manager, reading the minutes of 1967 meeting; Jacob Smith giving the FLBA Directors Report and John Long with the PCA Directors Report.

Richard B. Lefever, President of FLBA was the Toastmaster.
