RANDOM SHOOTING UNLAWFUL DURING BIG GAME SEASONS

Sportsmen are reminded that they may not shoot at random during the big game seasons which started Monday, November 25.

It is unlawful, during big game seasons, to shoot at any mark or target other than legal birds or animals, except at a properly constructed target or a dead tree within 200 yards of the hunting camp or headquarters of the shooter.

Shooters are warned that it is unlawful to fire at public utility poles, transformers, insulators, traffic signs, warning posters, etc.

You contribute quite a bit to this acidity each time you apply fertilizers. □ But Ortho UNIPELS have a "low calcium carbonate equivalent." This means that UNIPELS cause less depression of your soil's pH. And you know with a more favorable soil pH you

are bound to get higher yields. □ On top of that, UNIPELS, plowed down in the fall, work for you all year 'round: fall, winter, spring, and summer. That's why it's called "The All-Season Fertilizer" □ Come see us soon for the facts and figures on how you can save money on liming costs and earn more money from higher yields with UNIPELS.
