MOUNT JOY R. 1, PA.

MUSSER LEGHORN FARM FACTS

90% of MUSSER'S M-327 chick sales during the past 3 years were sold to the same poultrymen year after year.

95% of MUSSER'S M-327 20 to 22 week-old matured pullets, ready to lay for the past 3 years were also sold to the same poultrymen year after year.

The Musser Leghorn Farms hatched and raised 22 different ages of

Musser M-327 pullet chicks to maturity yearly for the past 3 consecutive years by keeping coccidiosis well under control and leukosis at a minimum. We believe that by building resistance to our strain of Musser M-327 Leghorns on our own farm and that by raising them in close proximity to older birds, that we can better assure you of success if you purchase Musser M-327 chicks this year.

The Musser Leghorn Farms believe that their methods of resistance controls, plus an intensified breeding system and a lot of good common sense is responsible for our success.

Place your order now for MUSSER'S M-327 chicks early, so you will be prepared to be a year after year customer of ours.
