Imports of unmanufactured cigar tobaccos — leaf and scrap - are at record high levels, and exceed the amount of domestic fillers used in cigars.

Total imports of unmanufactured tobaccos for immediate use in cigarette and cigar manufacture totaled 135 million pounds for the first 7 months of 1968. This compares with only 109 million pounds in the same period last year.

Turkey and Greece provide while most of our imported cigarette come primarily from the Philiptobaccos, and the Philippine Re-pines, Canary Islands, and Holpublic. Dominican Republic and land.

5. Entries become the property of Lancaster Farming and

per week will be allowed.

tery Farm Picture Frame in each issue. Guess which of your neighbor's farm is pictured. Put your identification (THE NAME ON THE MAIL BOX AND HIS ADDRESS) along with your own name and address on a five-cent post card or in a letter. (Note the correct identification will be the person actually living on the farm.) Mail it to us so we have it in our office by Friday morning following the Saturday publishing date.

the decision of the judges is final. Identification of the Mystery Farm will be published in each following issue.

> COMPENSATOR-50 (LIQUID)

COMPENSATOR-50 LIQUID FEED SUPPLEMENT

FOR RUMINANT LIVESTOCK

by the unique combination of non-calcium-bearing ammon-

ium polyphosphate and feed urea in an ideal nutritional

environment that assures the ultimate in feed palatability

The use of supplemental nonprotein nitrogen in dairy feeds

for high producing dairy cows has posed some discouraging

problems such as ingredient segregation, pelleting difficul-

ties, and feed palatability. Because of these concerns it is not unusual today to note circumstances where Northeastern feed manufacturers have decided to withdraw feed urea

Agricultural Division Allied Chemical Corporation New York, New York

BACKGROUND:

B.S., University of Massachusetts, 1949 M.S., University of Connecticut, 1951 Ph.D., Pennsylvania State University, 1956

Beacon Feeds Corporation, Director, Dairy & Livestock Research

Albers Milling Company, Director, Nutrition & Technical Sales

Allied Chemical Corporation, Director, Animal Nutrition & Health RUMINANT LIQUID SUPPLEMENTS: "Now, for the first

LIQUID FEED SUPPLEMENT FOR RUMINANT LIVESTOCK. GUARANTEED ANALYSIS USE ONLY IN ACCORDANCE WITH DIRECTIONS FURNISHED INGREDIENTS DIRECTIONS: Feed to ruminants at the rate of I to 25 younds per animal per day. Compensator 50 may be blended with available gra per any. Compensates 50 may be sinetened with available ground grains or mixtures of grains and other feed ingredients such as curn, ear cern, grain serghums easts, wheat mill feeds, beet pulps, etc. Nic Gemensates 70 at the rate of 5 to 15 percent of the grain mixture. Compensater 50 may be top dressed on sitage or other reviewes in propertients so that the animals test all delay lintake of Compensator 50 will be between 1 to 2.5 pounds. (PATENT PENDING) MANUFACTURED Allied Chemical Corporation

This is indeed unfortunate! time, Northeastern dairymen have the opportunity to take full advantage of the feed cost reduction system provided

This denies dairymen the means of reducing feed cost through the use of proper amounts of nonprotein nitrogen in the feeds made available to them.

NEW YORK. NEW YORK

ARCADIAN COMPENSATOR LIQUID SUPPLEMENTS overcome all of these problems encountered with dry feeds and, at the same time, help lower out of pocket cash costs for purchased compensatory nutrients.

A new era in dairy cattle feeding is upon us.

Allied Chemical is proud to have pioneered the compensator concept and be the first to make this exciting new dairy cattle feeding technique available to Northeastern dairymen." Dr. Gilbert Porter.
