

LANCASTER COUNTY FARMERS RECEIVING their State 5-Acre Corn Club Awards at the annual corn growers banquet at Harrisburg last week. (left to right) Glenn B. Thomas, Lititz R3, champion in the machine harvested class with 206 bushels of shelled corn per acre;

Joseph H. McGahen, Extension Agronomist at Penn State, making the presentations; Clarence Keener, Jr., champion in the hand harvested class with 187 bushels per acre; Guy Eshelman, second in the hand harvested class and Arnold Lueck, Associate Lancaster Ag Agent.

Sweet Corn Meeting To Be Held In York

Corn ear worm and corn borer damage to sweet corn grown for processing and fresh market was more serious last year than growers have experienced in recent years.

A special one-day conference

on growing high quality sweet corn and controlling pests will be held in York County, Tuesday, January 28th. The meeting is scheduled for 10:00 a.m. at the Avalon Farm Dairy restaurant, Whiteford Road, York.

Speakers on the program include specialists from The Pennsylvania Department of Agriculture, Penn State University and the University of Maryland. Lancaster County sweet corn growers are urged to attend.

Diet and Healthy Teeth

Good dental health practices should begin in childhood, reminds Mrs. Ruthalee Carroll, Penn State extension foods and nutrition specialist. You help your child to build healthy teeth when you serve him well-balanced and adequate meals, using a variety of foods, and with special emphasis on raw fruits and vegetables, and restricting sweet snacks between meals.

Courses

STUDY WOODLOT FORESTRY BY MAIL

Take a good look at your woodlot this winter. Do mature trees dominate certain areas, preventing the growth of saplings beneath? Can more desirable tree species be planted in some areas? Are shrubs and grains needed for wildlife cover and feed?

According to a Pennsylvania State University correspondence course on woodlot forestry, good management requires that trees grow close together. Competition for space and light causes trees to crowd their tops as they grow making long, straight trunks free of side branches. Long boards, clear of knots, are cut from such logs.

But, there may be too many trees in an area. Overcrowding results in spindly-stemmed trees. Thin the stand by cutting out trees of low value.

To learn management of woodlots study Penn State's correspondence course. Send your name and address with \$2.25 to Woodlot Forestry, Box 5000, University Park, Pennsylvania 16802. A course copy will be sent by mail.

BEHLEN Town & Country

VERSATILE ALL-STEEL BUILDING FOR ALL-AROUND USES

Do you need a garage, equipment shelter, cattle shelter, milking parlor, machine shop, office, meeting hall? The Town and Country will best fit your needs—and your pocketbook—now and in the future. It gives you clear span construction from 25' up to 60' . . . choice of 10' or 14' ceiling heights. If you need more space later you can add on easily—without wasting building material.

GOES UP EASY

There's no frame to build. You just bolt together heavy-gauge, 3" corrugated steel panels to put up this general purpose building. Wide selection of doors and window styles available.

Poultry Products Go To Orphanage

What happens to the poultry products exhibited at the Pennsylvania Farm Show?

This year's products, 675 pounds, were donated to two orphanages, Sylvan Heights Home of Harrisburg, and the Methodist Home for Children at Mechanicsburg.

State Agriculture Secretary Leland H. Bull, Gov. Raymond P. Shafer, Sen. William B. Lentz, Sen. Clarence F. Manbeck, and Henry C. Kennedy, Jr., manager of the Commercial Department of the Harrisburg Chamber of Commerce, presented the products to Charles Ratchford and Cynthia Wilson,

children who represented Sylvan Heights.

Among the products which were donated by poultry processors from various sections of Pennsylvania, were out-of-the-ordinary items such as pheasant, partridge and wild turkey.

The products also included whole birds — fresh and frozen — cut-up friers, batter-dipped chicken, chicken and turkey rolls and chicken and turkey scrapple.

Last Appearance

George Washington made his last military appearance in Cumberland, Md. As president, he here, in 1794, reviewed troops called out to suppress the Whiskey Rebellion.

APPLY LIME ON FROZEN GROUND

Don't hesitate to apply lime, even if the ground is frozen. The freezing and thawing action of Winter helps disseminate the lime, assuring you a properly balanced soil, ready for Spring plowing. And remember, liming pays in extra bushels and tons of crops and forage.

PIONEER OF BETTER IDEAS IN SILO UNLOADING

A 2-foot diameter impeller isn't the only reason you'll feed cattle faster with a Van Dale silo unloader

HERE'S ANOTHER...

. . . pioneered by Van Dale back in 1957 . . . the heftier cast iron swinging V-paddles. They give the impeller more unloading capacity. Each 6 lb. V-paddle is weighed, matched, and balanced, then pre-run for more dependable performance. And then there's the solid-weld construction of the heavier gauge impeller housing for longer life in the silo . . . and the biggest impeller throat . . . and there are many more reasons that contribute to Van Dale's superior capacity and reliability in addition to the impeller . . . like the double augers and the . . . But why not let us tell you about them. We'll be happy to drop by to see you at your convenience.
