### An Improve-The-Diet Program Is Launched In Chester County

To get he most from the food better use of foods and how to dollar and to improve the nu- improve the family diet. tritional values of the diet among families who have limit ed income are the prime oblaunched by the Cooperative Extension Service of The Penn sylvama State University

This educational activity is being conducted also in the other 49 states and coordinated by the Federal Extension Ser- ed on critical nutritional needs vice of the U S Department of last year when a Food Con-Agriculture. Participating sumption Survey by the Agrihomemakers and their families cultural Department revealed levels will be taught by person-to-per- that the quality of diets in the son contact in their homes.

In the Commonwealth 18 pilot areas have been designated to initate the project. Miss June Wilke, Chester County Home Economist, will direct this educational effort in Ches-Miss Wilke, these aides will call diets.

Miss Wilke will consult and work with other family serving agencies and organizations at jectives of a program being city and county levels in this project of foods and improved family nutrition, including use of the Donated Foods and other resources that help homemak ers with family problems

National attention was focus United States declined in a 10year period from 1955 to 1965. One person in six who had a good diet in 1955 did not have a good diet in 1965.

ceived specialized training from incomes under \$3,000 had good environmental health of many ter public understanding

this educational activity will be training and information on how to select, store, and prepare foods for maximum nutritive value; how to read and interpret labels on food, and what critical nutrition needs should be considered for childien and voung families, the aged and those with limited in-

The Cooperative Extension Service was named to lead this project because of its expertise in conducting informal educational programs that have been operating for more than 50 years on community and county

with your purchase of selected Ful-O-Pep Feeds

### **Deluxe Nite Hawk Flashlight**

Ful-O-Pep's new dual beam lantern is the most versatile ever offered. It features the right light for every application. A brilliant spot beam concentrates light where you want it. The flood beam evenly diffuses light over large areas without bright spots or harsh shadows. A handy red flasher is a safety warning signal you can't miss. All three lights are dramatically combined in one breakresistant, rustproof case. Each lantern comes with battery included.

Ful-O-Pep's new economy lantern sheds just the right amount of light for any occasion. This sturdy all-purpose lantern is formed from high density polyethylene that will not rust nor break. It features a weatherproof switch, springcushion bulb, quick-connect battery leads, and a 3 inch vacuum aluminized reflector for perfect spot. The lantern is completely buoyant-it will not sink in water. Each lantern comes with battery included.
