Presented this year for the first time, the "Outstanding Senior Award" replaces the "Mr. Agriculture" citation bestowed in previous years upon an outstanding student in the College of Agriculture. The award is sponsored by Coaly Society, an honorary undergraduate group. Sheryl Vanco's most cherished honor was being selected "Miss College of Agriculture" in 1966-67. She won first place in the Guldin Public Speaking Contest, sponsored by Coaly Society. She has served as a representative to the Ag Student Council. And she was editor of the "Ag Hill Breeze" and the "Penn State Danyman."

Sheryl has been active as secretary to the Campus 4H Club, the Dairy Science Club, the Food Technology Club, and Coaly Society. As a member of the dairy cattle judging team, Sheryl placed sixth in presenting oral reasons at the National Collegiate Dairy Cattle Judging Contest held in Columbus, Ohio. She ranked 12th at the International Collegiate Dairy Cattle Judging Contest in Chicago.

John Frey is president of the Ag Student Council. He served as assistant beef superintendent and publicity chairman for the Little International Livestock Exposition. He represented the Block and Bridle Club at a national meeting of undergraduate student livestock clubs in Chicago.

John is business manager of the "Ag Hill Breeze" and is a Coaly Society member. He was a member of both the meats judging team and the livestock judging team. He ranked 9th at the North Central Livestock Judging Contest at Ohio State University. He was 10th highest individual at the Eastern National Livestock Exposition in Timonium, Md., and was high individual in judging Angus cattle at the Pennsylvania Livestock Exposition, Harrisburg.

Lancaster Farming, Saturday, March 8, 1969--9

STATE LEGISLATIVE RESOLUTION of congratulation is presented to Henry Hackman, Manheim R2, (right), by State Rep. Jack Horner, for outstanding work in conservation. The presentation was made Tuesday evening at the Lancaster County Soil and Water District Annual Meeting at the Farm and Home Center. L. F. Photo

● Hackman (Continued from Page 1)

his farm showing practices from an air-view. Benjamin F Weaver, Chairman of the County Commissioners, presented a plaque for service to the District.

Then it was Charles Slaton, public information officer of the Soil Conservation District, who presented a slide exposition tracing Hackman's interest in land conservation and finally Funk presented a scrap book with some 55 letters of congratulations.

Throughout the evening friends of Hackman were called

upon and each recalled some phase of his work that was outstanding. Such words as practical, integrity, friendship, hospitality and somebody who cares, were used to describe Hackman.

Slaton told the audience that in the beginning Hackman's conservation moves at his Manheim farm weren't the most popular things with his neighbors.

"But in time, the neighbors began to look over the fence at Henry's place and later the appearance of their farmland began to change," he said.

In citing some of Hackman's feats, the conservation official said he had drained his land, planted new grasses, improved his cattle herds and still taught science to youngsters.

Hackman also is a science teacher at Donegal High School.

Robert G Struble, executive vice president, Brandywine Valley Association, West Chester, compared Hackman's way of life with a poem of Douglas Malloch's, "Life's True Values."

Weaver labeled the conservationist a man who has lived and preached the good life. Weaver said he had known Hackman since the time both were school teachers.

Finally Hackman stepped to the lecturn.

"I've got mixed emotions about this. It's just awfully hard to believe all of this can be happening to me tonight," he said.

Health Aid Service Being Provided

The Visiting Nurse Association of Lancaster County is now providing Homemaker-Home Health Aide service to the residents of Lancaster County. Homemakers, who are professionally supervised, are mature, understanding women, experienced in caring for children and managing a home.

They have been trained also to care for the elderly, the handicapped, and the chronically ill in their own homes. If you, or anyone you know, needs this helping service, call The Visiting Nurse Association, 397 8251 for more information.

There are about 75 million horses in the world — about 23 million less than 10 years ago.

Denver is our highest state capitol, Boston, the largest and Carson City, the smallest

PIONEER OF BETTER IDEAS IN SILO UNLOADING

A 2-foot diameter impeller isn't the only reason you'll feed cattle faster with a Van Dale silo unloader

HERE'S ANOTHER...

... pioneered by Van Dale back in 1957... the heftier cast iron swinging V-paddles. They give the impeller more unloading capacity. Each 6 lb. V-paddle is weighed, matched, and balanced, then pre-run for more dependable performance. And then there's the solid-weld construction of the heavier gauge impeller housing for longer life in the silo... and the biggest impeller throat... and there are many more reasons that contribute to Van Dale's superior capacity and reliability in addition to the impeller... like the double augers and the... But why not let us tell you about them. We'll be happy to drop by to see you at your convenience.
