### \* Farm Management Profit-Tip from Organic Plant Food

# How to profit with a knowledgeable fertilizer dealer

A competent fertilizer dealer is one of your most important farm management consultants. This counsel can help to increase your management effectiveness and reduce your fertilizer work-load.

#### Soil fertility specialist

A good dealer is more than a salesman—he's a soil fertility specialist who can provide you with all the necessary fertilizer information you need to plan and reach high yield goals.

#### Complete program

He can help you plan a complete soil fertility program by making a field-by-field analysis of your farm to decide how much Nitrogen, Phosphorus, and Potash plus micronutrients are needed for maximum yields. Apply recommended amounts, and you'll

achieve your pre-planned high yield goals.

#### Changing world of chemical fertilizers

A farm manager doesn't always have time to stay current with the world of chemical fertilizers. But your local fertilizer dealer has to. He'll keep you up to date and informed on all significant advancements.

#### We're here to help

Make us a part of your farm management team. Think of us as your fertility

management consultants. We're ready—right now—to help you plan this season's requirements. Ask about our program of direct application anhydrous ammonia & bulk-spread P & K. Call us, we'll come to see you.
