#### FLOWER ARRANGING

All of us have enjoyed the tune that goes, "The flowers that bloom in the spring tra-la." And flowers do bloom in the spring. They appear in all sizes, shapes, and colors for your enjoyment outdoors and inside your home.

Arranging flowers gives you a chance to create something, to high light some special spot, and to bring joy to those who observe your pleasing arrangement. Beautiful and pleasing arrangements can be made, whether you have many blossoms from your garden or a few which you have purchased from a florist, if you know how to arrange them.

Clearly written and illustrated with pictures of mechanics, types of containers, arrangements, and the steps in course making, is a correspondence course offered by The Pennsylvania State University. The information is adequate for the novice and also a challenge to the person who is experienced in arranging flowers.

By sending \$3.00 to Flower Arrangement, Box 5000, University Park, Pennsylvania 16802 now, you will have the course in time to take advantage of the first Spring flower sale. Make check or money order payable to The Pennsylvania State University.
