**HAND REELS**

Many people have stated, "Yard Man Hand Reels are so quiet, it's hard to believe I am actually cutting my lawn." If you doubt this, the one sure way to find out is to try it! When you do, you'll get another worthwhile surprise — 'Silent' Yard Man Hand Reels are also the easiest pushing mowers in the world! The operation is silent and without effort—the blades cut like scissors, smooth and clean. Hand operated Fast Set Wheel and Roller Adjustments always maintain the correct cutting plane.

A little effort with a Yard Man goes a long way towards a beautiful lawn.

Yard Man also has a 6" open-end Trimmer that operates the same way.

**Read Grass Seed Label**

Read the label before purchasing grass seed, the Pennsylvania Department of Agriculture advised today.

"If a consumer doesn't read the label, he is liable to come home with a big, bright bag of seed which will produce a poor crop of grass," Wendell P. Ditmer, the Department's botanist, said.

The label tells the kind of seed, how much of the seed is contained in the bag, the amount of noxious weed seeds, the date the seed was tested for growth and the percentage of seed which will germinate.

Ditmer said inferior seed may seem like a good buy because of the quantity obtained for a seemingly low price.

"It's not a bargain if it doesn't grow or if it grows for only one year," he said.

**Easy Steps To Furniture Arranging**

Keep comfort in mind when arranging furniture. Make a floor plan using graph paper. Show placement of doors, windows, heating units, and electrical outlets.

Place big pieces out of major traffic patterns.

Establish a center of interest — window, fireplace, picture.

Cut graph paper to scale to represent furniture. Move scale furniture where you want it, distributing heavy pieces throughout the room.

Plan for color balance in all parts of the room.

**Cooking Frozen Roasts**

Hard-frozen oven roasts require about one-third to one-half as much cooking time for each pound as do corresponding fresh or thawed roasts.

Use the same procedures for roasting hard-frozen meat as for fresh roasts.

Place meat on a rack. Roast in 325 degree oven.

Don't cover the pan.

Don't add water.

Don't baste during cooking.

Use a meat thermometer to determine the doneness of the meat. Insert it in the roast after the center of the meat is thawed, or when it is about half

done. Don't force thermometer into partially thawed meat, it may break if the roast is still hard-frozen in center.

**Keep Inventory Of Household Goods**

Inventory of household possessions tells you how much personal property insurance you need. It also helps you prepare a claim list in case of loss.

Keep inventory in a safe place, such as a safety deposit box in the bank, so it can't be destroyed if a loss occurs.

The list should include furnishings, equipment, and personal property items such as clothing, jewelry, and luggage.
