Courses

Children who have early and consistent training in table etiquette develop grace and poise that helps them meet others with self-assurance. Appropriate table manners and service should be practiced at each meal. It's up to parents to set the example to be followed by children.

Parents who grew up in a home where good table manners were practiced daily find it easier to train their children. Mealtime enjoyment is greater when the whole family is familiar with and practices good table manners.

If you have questions about your table service and manners, here's a suggestion—take the table service correspondence course from the Pennsylvania State University. Besides teaching table etiquette and service to family and guests, the course describes the selection and care of table linens, silver, glassware, and china. It includes information on stain removal and gives table decorating ideas. How to manage buffet service for a large or small group is explained. Commonsense answers to table

What's In A Name? Plenty — In Fabrics

Two new names are on clothing fabric tags.

Look for "Plexiform" and "Innova."

"Plexiform has a thick-and-thin crochet look," reports Mrs. Pat Mathias, clothing-textiles specialist with the University of Maryland Extension Service in College Park.

"This interesting blend of rayon and polyester is completely washable and popular for beachwear, sportswear, and menswear."

Innova is an innovative, two-sided doubleknit fabric—combining the feel of acrylic wool on the outside and the softness of polyester skin side. And it won't pill!

"This fabric boasts wrinkle-resistance, permanent crease and plenty of body and bulk without

etiquette questions are given and suggestions for coffee hours and afternoon teas.

Whether you're a bride or a grandmother, you'll find valuable information in the course that can be studied and then filed as reference material.

weight," points out the home economist. "Innova is in women's dresses and sportswear, men's slacks and sports jackets, and children's wear.

The swing is to femininity in summer fabrics. You will see lots of etched flowers, tie-silk patterns, miniature-stylized paisleys and sweeping prints.

Also, chambrays seem to be for everybody—men and women, boys and girls.

Vacuum Cleaner Care

Some vacuum cleaner bags need to be emptied or disposed of more often than others. Refer to the instruction manual that came with your cleaner for proper directions.

If your cleaner has a secondary filter as well as a dust container, clean this frequently. For satisfactory cleaning results, follow the manufacturer's directions for care of any part of the cleaner.

Safety Tips For Young Tree Climbers
Empty your pockets of all sharp objects before you begin to climb.

Don't wear leather-soled shoes. Always test a limb or branch before you put your full weight on it.

If a limb tests out all right but looks a little weak, keep your weight as close to the trunk as possible, or pass it by for a sturdier one.

If you have to stretch to the next limb, don't go any higher. Otherwise, you'll have trouble climbing down.

Never go out more than one-third of the way on any limb, and as you get near the top stay even closer to the trunk.

Don't climb trees on windy days.

Short Ribs Of Beef For

Thrift Meal

Cooked until they're so tender the meat falls from the bones, beef short ribs are a tasty meat dish. An economical cut from the ends of standing rib roasts, short ribs have all the full meat flavor of the more expensive cuts and the same kind of high quality protein. To insure the most tender short ribs, slow cooking is best. Brown the meat and simmer in a little liquid until tender.
