## CONTROL WEEDS IN ALFALFA WITH BUTYRAC-118

Apply 2 to 4 weeks after alfalfa  
emerges. Controls broadleaf weeds in  
seedling or established legumes. This  
remarkable selective action — killing  
many broadleaf weeds without affecting  
certain broadleaf crops — has been  
proven by research men and commercial  
growers throughout the country.

We are distributors for a complete line of

## HAND REELS

Many people have stated "Yard-  
Man Hand Reels are so quiet, it's  
hard to believe I'm actually cut-  
ting my lawn."  
If you doubt this, the one sure  
way to find out is to try it. When  
you do, you'll get another word-  
while surprise—Silent Yard-Man  
Hand Reels are also the easiest  
pushing mowers in the world! The  
operation is silent and without  
effort—the blades cut like scis-  
sors—smooth and clean. Hand  
operated Fast-set Wheel and Col-  
ler Adjustments always maintain  
the correct cutting plane.  
A little effort with a Yard-Man  
goes a long way towards a better  
lawn.  
Yard-Man also has a self-operated  
Trimmer that operates the same  
way.
