HERE ARE 6 WAYS WE COULD SKIMP ON THE FAMOUS LAMCO FORAGE BOX

- 1 Use a Jerky Ratchet instead of **SMOOTH WORM DRIVE**.
- 2 Replace our **Safe Heavy Duty Outfeed Apron** with a dangerous auger.
- 3 Use common beater in place of our **Spiral beater** which peels off the material. No **Bunching — No Plugging**

- 4 - Skimp on a Plain open Jaw transmission in place of our **Protectively enclosed unit**.
- 5 - Replace our **Positive expensive worm drive** with open gears on our **Lower Beater Drive**
- 6 - Use ordinary soft wood for our main **Stringer and Cross pieces** instead of **Strong Oak**.

BUT . . .

We won't skimp — We know how valuable Farmers' time is in the Harvest.

Supervised Swimming Areas Are Safer

Swimmers in a supervised area have at least 98 percent less chance of drowning than those in an unsupervised pool, pond, or beach, reports the National Safety Council.

This message has special meaning to parents of rural children, many of whom have a convenient farm pond available, or a river nearby, cautions Joseph S Cardenuto, Extension recreation specialist at The Pennsylvania State University.
