

● **Terri Ann Shank**
(Continued from Page 1)

Mr. and Mrs. Benjamin Shank, Elizabethtown R1, Terri Ann has been very active in 4-H Clubs for the past eight years. To help her with her duties as poultry

queen, she had projects in chick rearing and flock laying management. And a special personal interest is the peck order and behavior in chickens. She wrote a science experiment theme on that subject and her mother says she is always studying special individuals in the chicken house when she helps with the daily chores. She entered prize-winning eggs at the Pennsylvania Farm Show.

To help brush up on any questions that might be asked in Hershey, the Poultry Queen is studying research information assembled by her sister Vicki. The project done by her older sister covers research information on quality control and grading of eggs.

Terri's interests are broad of course, as would be expected from such a talented young lady. She has had 4-H projects in photography, cooking, sewing, teen leadership and health. Terri is always trying new cooking recipes on the family.

Among her community services, she has been a teen leader of the 4-H physical fitness club and has been a volunteer swimming instructor at the crippled children's hospital. She has won the Kiwanis conservation essay contest.

When asked how much promotional effect on the sales of eggs and poultry meat a queen could have, Terri responded in her usual reserved manner. "I think it depends on the people who assign and arrange for the queen's activities. For example,

Start Here and Grow.

New, improved Red Rose Milk Replacer gives calves more vitamins, minerals than dam's milk . . . gives you more milk to sell. After the first week, calves actually get more vitamin and mineral fortification from Red Rose Milk Replacer than from dam's milk. More vitamin E and double amounts of vitamins A and D, and whole whey to supply additional lactose for energy. There's no weight loss, no slowdown in energy, no decline in growth.

Yet with all its improvements, Red Rose Milk Replacer is still lower priced. Ask your Red Rose dealer for the suggested Milk Replacer feeding program.

THE POULTRY QUEEN, Terri Ann Shank (center) and her parents Mr. and Mrs. Benjamin Shank, Elizabethtown R1. Miss Shank will represent the Lancaster County Poultry Industry at the State Queen Contest next Saturday at the Hershey Dutch Days.

at a fair it would help to have some special idea for the queen to follow. Maybe she could promote a special recipe."

Along with her daily work at home caring for 2,500 layers and the family self-service retail outlet along the road from Elizabethtown to Bainbridge, the local Queen serves as a waitress at the Masonic Homes Dining Room. She enjoys gymnastics very much and unconsciously does cart wheels on her way from one poultry house to another. And swimming is Terri's favorite sport. She has two major trophies to prove it. As a member of the Willow Wood Club in Elizabethtown, she won the best all around athlete award and the high girls score in swimming.

To relax she plays the piano and to prove she is energetic, she played the base drum in the high school band.

Earlier this summer, Terri served as a church camp counselor and she is scheduled to arrive home today from a church youth workshop at Findlay, Ohio.

Terri Ann will be one of seven contestants at the band shell in Heishey Park.

Carl Hanke, the famous Harrisburg organist is furnishing the music for the affair and the public is invited to attend the ceremony.

The Queen contestants will be brought to the band shell in new convertibles furnished by local automobile dealers.

Agway BEE-LINE Supply Center

TRUCK LOAD SALE ON AGWAY CORN CRIBS

REASONS WHY MORE FARMERS PREFER THE AGWAY GREEN DOOR BAR MESH CORN CRIBS

5 x 5 GAUGE BAR MESH

CRIB SIZES AVAILABLE
750 and 1100 Bu. Capacity
13' - 9" Diameter

1000 and 1500 Bu. Capacity
16' - 8" Diameter

ACCESSORIES AVAILABLE
Corn Diverter
Roof Ladder
Vent Stack

1. Galvannealed Wire
2. Steep Pitched Roof
3. Easy Erection
4. Easy Loading and Unloading
5. Positive "Safety Locking" of all sections
6. Tested Under Extreme Load Conditions
7. Excellent Basic Design
8. Reliable Manufacturer, (Foley & Lavish Engineering Co.)

FIRST COME - FIRST SERVED ORDER TO-DAY (LIMITED SUPPLY)

ADDITIONAL 5% DISCOUNT ON ORDERS PLACED BY AUGUST 30

TRADITIONALLY NEW... FIELD TO FEEDLOT

Smooth unloading WORM-GEAR DRIVE ...safety bar, too!

New worm-gear drive. New pintle-chain cross conveyor. Safety bar protection, too! Gehl forage boxes make smooth, positive, safe unloading a way of life! Set the unloading pace you need, get the unloading pace you set.

Gehl boxes have a full seven-foot inside width with "grain-type" unloading. A standard eight-inch unloading extension makes it easier to direct material where you want it. When purchased with a spring-loaded rear door, unloads bales, too.

Gehl forage boxes excel! See us today.

Make us prove it with a Demonstration!
