Safety With Chemicals
Keeping garden and household chemicals under lock and key is the only way to keep toddlers and young children safe from Poisons, according to Delbert L. Bierlem, Penn State Extension entomologist and pesticides coordinator. A separate cupboard locked with a combination padlock is ideal for storage.

FREY FREE STALL

Lifetime Free Stall Housing

Cut bedding costs 75%, reduce labor for barn cleaning and cow washing; reduce teat and udder injury to the minimum — house your milking herd in free stall housing. Each cow provided a stall for loafing. She won't be stepped on, the rear curb forces manure out into alley for mechanical cleaning or washing. A few minutes twice a day cleans the stalls and curbs, bedding lasts almost forever if your stalls fit the cows. Popular sizes are 6'6", 7' and 7'6". Size 'em by breed.

Our free stall partition may be mounted on wooden head boards or we make a steel divider. Set the legs in 8 to 10" concrete curbs to hold and retain bedding. Stall floor can be soil, sand or gravel. Bedding — straw, sawdust, peanut hulls, ground corn cobs, etc. Should be installed with paved alley surface 8 feet wide for mechanical cleaning or washing.

- 8 Models all steel welded form and feedlot gates
- 2 Models all steel welded head catch gate
