

(Continued from Page 18)  
Mrs. Wanner is one of the best cooks to be found. She bakes bread for themselves and makes candy to sell. She also does a lot of preserving, canning and freezing and makes chow chow.

Do you hake candy for Christmas? You might like to try three of Mrs. Wanner's favorites.

**CHRISTMAS CANDY**

- 1/4 lb. butter
- 1 cup sugar
- 1 egg
- 1 8 oz. pack of dates chopped
- 1 cup nuts chopped
- 3 cups rice krispies

**flaked coconut**  
Bring the first four ingredients to a boil, cook 3 minutes, stirring constantly. Remove from fire and add nuts and krispies. Drop by teaspoonful on coconut and shape into balls.

**KARO CAMELS**

- 2 cups granulated sugar
- 1 3/4 cups white Karo syrup
- 2 cups cream
- 1 cup butter
- 1 teaspoon vanilla
- 1 cup chopped nuts

Cook sugar, Karo, half the

cream, and butter together. When it boils stir in the rest of the cream, but do not allow the boiling to cease. Test for a firm ball in cold water. Add vanilla and nut meats, turn into buttered tin. When nearly cold cut into cubes and wrap in wax paper. The boiling sometimes requires nearly an hour. But when made these caramels cannot be excelled

**PREACHERS FUDGE**

- 4 cups granulated sugar
- 1 cup white Karo
- 1 cup hot water

Mix together and boil to a good soft ball stage. Let it cool some then pour over the beaten whites of 2 eggs and beat and beat till it forms a soft ball when dropped on wax paper. Coat with chocolate.

Here's a real good recipe that Mrs. Wanner takes to picnics and everyone likes to sample her delicious desserts.

**OATMEAL PIE**

- 3 eggs, slightly beaten
- 1 cup sugar
- 1 cup white Karo
- 1 cup quick oatmeal
- 1 tablespoon flour
- 1/2 teaspoon salt
- 1 tablespoon melted butter

Mix all the ingredients together and add one tablespoon of vanilla (Add the cup of oatmeal to the mixture last.) Put the mixture into an unbaked pie crust and bake at 325 degrees for about 45 minutes.

**SHOOFLY CUPCAKES**

- 2 1/2 cups flour
- 1 1/2 cups light brown sugar
- 1/2 cup butter
- 1 teaspoon baking powder

Mix well. Reserve one cup crumbs. To remaining crumbs add:

- 1 cup dark brown sugar
- 1 1/2 cups boiling water
- 1 teaspoon baking soda

Fill each cup 2/3 full. Top each cupcake with a heaping teaspoon of crumbs. Bake at 350 degrees for 20 minutes. Makes 18 cupcakes

**A Friend Needs You**

Come to the Humane League — 2195 Lincoln Highway East — and get a pet who will make your family Christmas warmer and brighter while giving the dog or cat a chance for a better life.

A pet is one of God's greatest gifts — a friend who is ever faithful and loves you in spite of all your faults.

A pet fills the void in a home where all the children have grown up and departed.

A pet is a playmate and protector in a home with children

If proper instruction is given by the parent, a pet is a wonderful education in kindness and responsibility — kindness which extends to all God's creatures, including those in the human race different from ourselves.

Shelter, food, and water is a small price to pay for so much pleasure to be gained.

**PLANT FOOD STORE**

"Look For This Sign"  
So. Newport Road  
Intercourse, Penna.  
Phone (717) 768-8451

It's time to thank you, our customers, for your continued patronage and to wish you all the joy of Christmas!

**Characteristics Of Christmas Evergreen Trees**  
Balsam firs have good color, a pleasing odor, good needle retention, and are easy to handle and transport. They are very irregular in shape and inflammable when dry.

Douglas firs have a good color and appearance and good needle retention. They are easy to handle and transport but won't support heavy ornaments.

Red pines have excellent needle retention. They have long, soft needles and a pleasing appearance. The color is fair and sparse branching is a problem.

Scotch pines have excellent needle retention. They have a

good to poor color depending on the strain. They are pleasingly branched and have short, sharp needles. But they're inclined to have brittle needles if the weather is cold.

Austrian pines have excellent needle retention and excellent color. The branches are long, and needles are stiff and sharp. The limbs are brittle and the branching is not always satisfactory.

White pines, too, have good needle retention and excellent color. Their foliage is soft and has a pleasing appearance, but sometimes foliage is not very heavy.

Norway spruces have good color and a pleasing appearance with short sharp needles. But they have poor needle retention.

Colorado blue spruces have exceptional color and a pleasing appearance. They have short, sharp needles and poor needle retention although it is better than that of the Norway spruce.

**Handle Satin Carefully**

If you're making a dress of satin, handle the fabric as though it had a nap. Although satin has no obvious pile or nap, light reflection on its surface gives it a sheen. This sheen is due to the weave which provides long lustrous threads on the surface. Because the sheen reflects light differently when in different positions, place and cut all pattern pieces in the same direction just as you would corduroy or velveteen.

**Tips For Enjoying Holiday Turkey**

Never freeze an uncooked stuffed turkey or a roasted stuffed turkey.

The only positive way to test doneness is with a properly placed meat thermometer. Much variation in cooking time and tenderness is due to inaccurate oven thermometers or frequent opening of the oven door.

Pieces of small turkey can be fried and the whole turkey can be cut to yield drumsticks, thighs, wings, back pieces, and breast pieces.

Whole turkeys can be cooked on a rotisserie, provided the weight doesn't exceed the manufacturer's specifications for operating the rotisserie. Stuffing the bird is not encouraged for rotisserie cooking.

You can make gravy using canned turkey or chicken soup, or chicken bouillon.

Carving and serving will be easier if you use a simple garnish for the bird.

Seize turkey on a hot platter and give your family and guests hot plates to increase their satisfaction with the holiday bird.
