now being tested at the central lab at Penn State. Two machines and four full-time women employees are making the tests.

M. M. Smith, County Agent warned against the wrong use of pesticides and urged farmers to complete the census report that was mailed to them. He also reported a new variety of alfalfa on the market. This variety named "team" is regarded as more resistant to the alfalfa weevil but according to Smith has not been completely proven winter hardy.

A list of local herds receiving recognition for records over 600 pounds are as follows: Lloyd Wolf, Quaryville R2 416 cows, 15,720 pounds of milk 660

Beef & Hog Men . . . this \$70 trip could change your life!

JET TO ILLINOIS with PENN-JERSEY HARVESTORE!

HERE'S WHAT WE'LL SEE . . .

Jet with other Penna. Beef & Hogmen on Feb. 18 & 19 to one of the great Beef-Hog areas in Ill. Find out how these Beef-Hog men make big money producing Beef & Pork.

Your HARVESTORE dealer has arranged with the Philadelphia and Harrisburg airports a special, chartered jet to fly you to Peoria, Ill. for the two day tour. And at a special rate. Only \$70. Including all transportation, motel, meals & tips.

One idea could change your entire Beef-Hog operation. So treat yourself to a two day business vacation (tax deductible) and some eye-opening, almost unbelievable facts about producing more Beef and Pork.

STROLLER

Father and son produce over 1,100 pounds of beef per acre. Feed out 600 calves and 200 yearlings per year in open-front, slatted floor semi-confinement building.

DUNMIRE

Backgrounds own feeders on Nebraska ranch. Feeds 400 head in conventional lot with liquid manure pit. Gets 2 to 2.3 pounds of gain per day in finishing program.

SCHEDULE

The HARVESTORE Jet originates at Philadelphia, stops at Harrisburg on its way to Peoria, Ill. the morning of February 18th

Ask your dealer when your reservation is confirmed (he'll contact you) about departing time and gate. There'll be no baggage check, so take only what you can carry.

We'll have you back in Philadelphia or Harrisburg the evening of the 19th

HOWARD

Feeding 450 head of cattle per year in controlled environment, slatted floor building. Feeds 400 head per year in outside lot. Fair-rows and feeds out over 1600 hogs per year in confinement. All on less than 500 acres with a minimum of hired help.

BAIRD

Unique plan kept three sons farming. Each owns his own farm but they operate as a single unit. A thousand tillable acres produce 1,100 cattle plus certified seed.
